SWAYNE TRIAL ARRANGED FOR

Senate Formally Organizes for Hearing of Impeachment Charges.

SCENE IS IMPRESSIVE

Chief Justice Fuller Administers Oath, and the Accused Is Called to the Bar.

HEARING WILL BE LENGTHY

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—The senate today took an important step in the impeachment trial of United States Judge Charles Swayne of the Northern district of Florida. The organization for the trial was perfected by the swearing of senators for that purpose.

The managers of the house were received for the purpose of formally presenting the articles of impeachment and a resolution summoning Judge Swayne to appear was adopted. Mr. Platt of Connecticut was elected to preside at the trial sessions. Further proceedings were postponed until Friday next, when Judge Swayne is expected to appear in response to the summons of the senate. The ceremony was impressive and was witnessed by a full senate and by well filled galleries. The trial oath was administered to senators by Chief Justice Fuller, who appeared in the long black gown worn by him when sitting in the supreme court.

Estimates as to the length of time that the trial will occupy vary from ten days to a month, after it is once begun. It is believed that when Judge Swayne appears next Friday he will ask a few days to make answer and when he does answer that a day or two more will be given to the house for the preparation of its replication. A number of witnesses will be heard and considerable time will be consumed by attorneys. It is, therefore, probable that the conclusion of the case will not long precede the day of final adjournment in March.

Hearing Will Be Expedited.

It is the purpose of senators to press the matter as rapidly as possible and the present expectation is that the daily sessions will be advanced an hour or two. A part of each day will be given to the trial when the preliminaries are disposed of.

The managers on the part of the house in the impeachment proceedings against Judge Swayne entered the main door of the senate at 12:30 o'clock. They appeared in a group in the rear of the chamber, headed by Mr. Palmer, their chairman, and were immediately announced by Alonzo H. Stewart, assistant sergeant-at-arms of the senate.

The managers were then escorted to their seats by Sergeant-at-Arms Ransdell, who after seating them ascended to the president pro tempore's stand and impressively and in stated form demanded silence, saying: "Hear ye! Hear ye! Hear ye! All persons are commanded to keep silence, on pain of imprisonment, while the house of representatives is exhibiting to the senate of the United States articles of impeachment against Charles Swayne, district judge for the Northern district of Florida."

Mr. Palmer was then recognized and read the articles of impeachment. Immediately afterward the house managers withdrew and Mr. Fairbanks presented a resolution providing for the appointment of a committee of two senators to wait on the chief justice and ask him to appear in the senate chamber at 2 p. m., and administer the necessary oaths to senators as members of the impeachment court. The resolution was agreed to and Messrs. Fairbanks and Bacon were appointed to perform that duty.

Mr. Platt to Preside.

President Tempore Frye announced to the senate his decision not to preside over the senate during the impeachment proceedings. He said he had not entirely recovered his strength since his recent illness and feared it would not be sufficient for that duty and for his work as presiding officer in legislative session. In view of this statement, Mr. Spooner offered a resolution providing for the appointment of Mr. Platt of Connecticut to preside over the impeachment court, and it prevailed. A resolution by Mr. Allison authorizing the payment of the expenses of the trial from the contingent fund of the senate was also accepted.

At the instance of Mr. Platt of Connecticut a roll call of the senate was ordered a few minutes before 2 o'clock, in order to insure a full attendance at the time of the administration of the oath. Seventy-two senators responded to their names, and the last name in the list had scarcely been announced when Chief Justice Fuller appeared at the south door of the senate chamber. He was flanked on the one side by Mr. Fairbanks and on the other by Mr. Bacon. His presence was announced by the assistant sergeant-at-arms of the senate, and he was escorted to the presiding officer's seat. He was clad in the full robes of his office, and his presence was impressive as he walked down the center aisle of the senate, between the two stalwart senators escorting him. The entire senate had risen when the chief justice was announced, and remained standing until he was seated on the left of President Pro Tempore Frye.

Oath is Administered.

He proceeded immediately to administer the oath to the president pro tempore, and then to Mr. Platt as the presiding officer for the trial. After they had been sworn the roll was called and senators appeared in groups of 10 before the senate bar to take the oath, which was administered by the chief justice standing at the presiding officer's desk. "You do solemnly swear," the oath ran, "that in all things appertaining to the trial of Charles Swayne, judge in and for the northern district of Florida, now pending, you will do impartial justice according to

THE LIMIT.

TUCKER IS GUILTY IN FIRST DEGREE

Adjudged Slayer of Mabel Page Utterly Collapses When the Verdict Is Read.

LAWYERS WEEP TOGETHER

[By Associated Press to The Gazette.]

CAMBRIDGE, MASS., Jan. 24.—Guilty of murder in the first degree, was the verdict returned tonight against Charles L. Tucker of Auburndale, who has been on trial since January 1 for stabbing Miss Mabel Page to death in her father's house at Weston last March 31. Death in the electric chair in the state prison in Charlestown is the penalty.

The jury's verdict was returned at 10:10 o'clock tonight. Tucker collapsed utterly. His mother left the court room before the jury returned. On learning the news she fainted.

James H. Vahey, senior counsel for the prisoner, was greatly affected, and when he left the court room he met Attorney General Herbert Parker in the corridor. The leading counsel for the commonwealth threw his arms around Mr. Vahey's neck, and both men wept on each other's shoulders, the attorney general expressing in broken words his sympathy for his brother attorney.

Philip Mansfield, one of the associate counsel for the youthful prisoner, became hysterical and fell into the arms of a reporter.

When Foreman Knight said that the jury's unanimous verdict was murder in the first degree, Tucker, who for 20 days has borne his ordeal with apparent unconcern, sank into his seat, rested his head on his hands, fell forward against the rail of the cage and sobbed violently. His lawyers tried to comfort him, but without avail.

The counsel for the defense is allowed 30 days in which to file exceptions, and sentence will not be pronounced until action on these exceptions has been taken by the court.

Before the case was given to the jury today Tucker addressed the jurors and declared his innocence, saying he was at home when Miss Page met her death. He said he foolishly broke up the knife, which figured prominently in the case, because officers hounded him.

MRS. BRODIE L. DUKE IS PRISONER IN THE TOMBS

She Was Arrested on Texas Indictment Charging Her With Complicity in Land Swindle and Loan.

[By Private Wire to The Gazette.]

NEW YORK, Jan. 24.—Mrs. Brodie L. Duke spent tonight in the Tombs. The utmost exertions of her attorneys failed to obtain a boudsman. The woman who says she is the wife of a North Carolina tobacco factor, was arrested today in Broad street.

When arrested Mrs. Duke became hysterical and called on bystanders to release her, but a little firmness on the part of the detective enabled him to drive away with his prisoner, who sank into a corner of the cab and burst into tears. The arrest of the woman on a charge of having swindled a Texas bank out of $300 in a land deal and loan, had been expected for more than a week.

On being searched only 25 cents was found in Mrs. Duke's pocketbook. The indictment on which she was arrested was found during the September term of the Nacogdoches county (Texas) grand jury. She will fight extradition proceedings.

COWARDLY LOVER WATCHED HER DIE

Recoiled from Suicide Pact With Sweetheart When He Saw Her Agony.

IS CAUGHT AFTER HIS FLIGHT

[By Associated Press to The Gazette.]

MILWAUKEE, WIS., Jan. 24.—Arthur Henry Milligan, alias E. S. Terry, alias Arthur Henry Smith, alias Arthur Henry Brown, with whom Florence O. Groves agreed to commit suicide at the Hotel Blatz, and who disappeared after the girl had fulfilled her agreement Monday morning, was arrested at the residence of Robert Barlow, at Racine, by Chief of Police Fred Pfister of that city tonight. His capture took place only after he had attempted suicide and had been prevented by Pfister.

After his arrest Milligan calmly detailed the story of his life and the incidents of the girl's death. He said she took carbolic acid in his presence at the hotel, after she made three attempts to kill herself with poison. Milligan was not married to her. The couple eloped from Grove's residence in Chicago with the intention of getting married.

"Florence knew what the end would be when she decided to elope with me, and she was eager to die with me," said Milligan said. "She was engaged to a school teacher of Orland, Ill., but she loved me better. I told her the day she married him I would kill myself, or else would take my life on her birthday, January 27.

"Every day we were at the hotel we planned to kill ourselves. Finally we set Monday morning as the day. Sunday morning she tried three times to kill herself with poisons I had purchased. She drank oxalic acid, iodine and wood alcohol in turn, but they acted only as emetics.

"She did not take the carbolic acid until Monday morning because she realized its horrible effects. She begged me not to go first, as she did not want to see me die. She asked me to pour out the acid, and I filled a wine glass with it. As her last request she asked me to hand it to her, but I refused repeatedly.

"At last she nerved herself, snatched the glass and swallowed the dose at a single effort. I seated myself by the bed and watched her die. My nerve failed me. I did not have the courage to follow her."

Terry says his right name is Milligan, and that he is wanted in Boston on charges of forgery and larceny. He also admits having forged a check while working for the Hubbel Publishing Company, New York.

TAYLOR DIRECTS HIS OWN DEFENSE

Kentuckians Await Decision in Moot Trial in Iowa With Keen Interest.

STUDENTS GIVEN EVIDENCE

[Special Telegram to The Gazette.]

DES MOINES, IA., Jan. 24.—From his refuge in Indiana, ex-Gov. William Taylor himself is prompting the trial of himself, commenced today in the mock court of the Drake university of law, charged with the murder of William Goebel of Kentucky, an accessory before the fact. It is not merely the wit of the "attorneys for the defense" against the "attorneys for the prosecution," but the friends of the real William Taylor are pitted against his enemies, and in Kentucky the decision of the mock court is being awaited with the keenest interest.

Mr. Taylor is showing much concern in the outcome and has been in communication with the "attorneys for the defense," and is anxious to aid them in every way in their efforts to prove him innocent. The friends and enemies of Taylor have aided in every possible way in the collection of evidence. Every communication sent out by the "attorneys" to prominent partisans of either side has been promptly answered, with the information desired. For their convenience the "attorneys for the state" have been furnished with a complete typewritten abstract of the proceedings of the trial of Caleb Powers.

SIGSBEE REPORTS QUIET AT DOMINICAN CAPITAL

Revenue Cutter Dispatched to Head Off Raid Contemplated by Revolutionary Party.

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—Mr. Loomis, acting secretary of state, had a conference today with Captain Pillsbury, assistant chief of the bureau of navigation, regarding the Dominican situation. Through the navy department Mr. Loomis received a cablegram from Rear Admiral Charles D. Sigsbee, commander-in-chief of the Caribbean Sea squadron, saying that on his arrival at Santo Domingo city he found the situation to be one of perfect quiet.

The general board of the navy is giving the Dominican situation careful consideration so as to have the navy prepared for any emergency. It is probable that a ship of the Tacoma class will be ordered to Santo Domingo city to remain there and leave Admiral Sigsbee free to cruise around generally through Dominican waters.

Later it is expected the Newport will go to Dominican waters and make a visit to Samana bay, one of the most desirable harbors in the West Indies.

SAN JUAN, PORTO RICO, Jan. 24.—The revenue cutter Dexter has been dispatched to Mayaguez for the purpose of intercepting an expedition carrying arms and ammunition to Santo Domingo for the leaders of a contemplated revolution.

MEN OUT IN OTHER CITIES

[Associated Press Cable to The Gazette.]

MOSCOW, Jan. 24.—The strike, which began at St. Petersburg and was followed by men going out here, is rapidly spreading throughout Russia.

Special telegrams from Radom, European Russia, describe that city as being in a state of siege, with military patrols in every street. The soldiers occasionally fire on gatherings of the people, who have returned the fire, killing three officers. The people are also said to have blown up several buildings with dynamite.

Over 100,000 men are out in the old capital of the empire tonight. A telephone message from Moscow at midnight reported that there had been no disorder as yet. There will be a big demonstration in Moscow tomorrow and it is feared that it will be accompanied by bloodshed. The situation confronting the military authorities at Moscow is much more serious than that in St. Petersburg.

Turbulent Element in Moscow.

Out of over 1,000,000 inhabitants of Moscow, over two-thirds are workmen, including an exceedingly rough and turbulent element. The troops there are fewer, and the city does not lend itself, like St. Petersburg, to natural barriers to prevent the congregation of men. The center of the town has no bridges and no canals, and hills and narrow streets make it difficult for troops to act. Only the gates piercing the walls of the old Chinese town which surrounds the Kremlin would afford the military natural places to bar demonstrators.

A body of strikers forced their way into the works of Hopper today, and compelled 500 men to join the strike. Simultaneously factories and other works were closed throughout the districts adjoining Dandloff street.

The employes of the Bari boiler works began work this morning, but the strikers forced their way into the works and ordered the men to cease work. They immediately complied.

Workmen Join the Strike.

Employes of the Puchuchin, Michailoff Linder and Schaeder factories have joined in the strike. Employes of the tanneries, who are out, remain quiet.

The police have ordered all arms to be removed from the windows of the gunsmiths, a majority of whom have closed their shops.

A conference of employers met at the bourse today, but achieved nothing, as the strikers have not yet formulated their demands.

The Liberal paper Russky Vedomosti has created a sensation owing to its comment on the official statement of the St. Petersburg shooting. The paper says:

"This official report does not come from the scene of war, the victims have not fallen on the battlefields of Manchuria nor in a fight with a foreign foe, but in a bloody conflict between troops and Russian burghers. Arms and slaughter may avail to put down a peaceful demonstration, but force is not powerful enough to quench the aspirations of the Russian heart, ward off the consequences of Sunday's volleys and prevent the movement for liberty and a justly organized government coming to a full fruition."

Prince Galitzin Re-Elected.

The municipal council today, by a vote of 113 to 10, re-elected Prince Galitzin mayor of Moscow. The prince is a prominent leader in the local reform movement, and resigned recently on the issuance of the government declaration condemning the reformers' propaganda.

Infantry and cavalry are patroling the city tonight. Several groups of drunken demonstrators have been forcibly dispersed.

VILNA, RUSSIA, Jan. 24.—A strike has commenced here. The town is quiet.

KOVNO, RUSSIA, Jan. 24.—Work has been stopped at all the factories and railroad shops here.

TRIESTE, Jan. 24.—Several hundred workmen assembled before the Russian consulate here last night, crying: "Down with the czar," "Down with tyranny," "Down with absolutism." The police dispersed the crowd without difficulty. A few arrests were made.

GUARD RUSSIAN EMBASSY.

Vandal Wrenches Plate from Czar's Official Building in London—Anarchists Are Watched.

LONDON, Jan. 24.—A big brass plate at the entrance of the Russian embassy here was wrenched off at 2 o'clock this morning. A special constable on duty at the embassy witnessed the act, but was unable to get to the spot in time to arrest the man. The embassy is guarded by two policemen tonight and the detective force of London is closely watching the anarchist quarters.

The Society of Friends of Free Russia met this afternoon and decided to raise a fund for the St. Petersburg sufferers. An appeal will be made through the newspapers.

Neidringhaus Lost Three Votes.

JEFFERSON CITY, MO., Jan. 24.—In joint session today Thomas K. Neidringhaus, the Republican caucus nominee for United States senator, lost three votes which Kerens gained. The ballot stood: Neidringhaus, 78; Cockrell, 81; Kerens, 12; Goodrich, 1.

BOMB HURLING NOW FEARED

Terrorists Getting Upper Hand Among Idle at St. Petersburg.

GOPON IS VENGEFUL

Calls on the People to Use Dynamite — Well-Known Men Have Been Arrested.

WILL DECLARE SEIGE TODAY

[Associated Press Cable to The Gazette.]

ST. PETERSBURG, Jan. 24.—A reign of terror, it is feared, will follow the subjugation of the strikers by the troops. For the moment the workingmen are without a plan of action and are seemingly commencing to realize that without arms it is folly to resist the troops. But if the strikers are paralyzed there is general fear that the revolutionists and terrorists who are coming to the front will begin a reign of bomb throwing and that the Political Exile association, known as the "Illegal Red Cross," will make large contributions.

It is not known definitely whether Father Gopon, the leader of the workmen, is in Moscow or St. Petersburg. A proclamation said to emanate from him has been distributed, indicating that he has gone over body and soul to the Social Democrats. The proclamation declares that since the emperor and the emperor's ministers have refused to listen to the people's grievances and fired upon them, the government has outlawed itself so that every man's hand should be against it, and calls upon the people to slay the outlaws and destroy the government root and branch.

Authorizes Use of Weapons.

It authorizes the men to use bombs, dynamite and other weapons, invites students to join and absolves the soldiers from their oath of fealty. The destruction of government property is recommended, but the proclamation requests the followers of Father Gopon to spare private property and ransack only shops containing victuals and arms, and urges all to continue the fight until they succeed in obtaining a national assembly.

The workingmen are thirsting for vengeance, and are calling on their leaders to use arms.

The revolutionists are reported to be actively preparing bombs and infernal machines to wreck the post and telegraph offices and destroy other government property. The revolutionists talk validity of issuing a manifesto outlining a provisional government. They seem to have broken completely with the zemstvos whom they treat with contempt on account of what they call their "truckling" to autocracy. Even Prince Trubetskoi, who led the reformers of Moscow, is regarded by them with suspicion and even hatred because in an article published by the Pravo he described the revolutionists as a "Port Arthur inside of Russia," which Russia would have to overthrow.

M. Hessen, editor of the Pravo, whose advanced liberal views are well known, has been arrested.

Prof. Kareef and MM. Annensky and Prezhechenoff, three well-known writers, and Town Councillors Kedrin and Schidlikoff, who are also lawyers, also were arrested during the night.

The prisons are filled with agitators, revolutionists and student orators.

The Workingmen's club has been closed by order of the prefect of police.

Workmen Seem to Have Money.

Only a few small factories have resumed. This is very significant, as indicating that the workmen are being supplied with the sinews of war. None has applied for pay at the factories, although some have two weeks' pay coming to them. The crowds in the streets are silent. The terror of the people has been somewhat relieved, but the dread of the next few days continues. Many foreigners are leaving Russia. The foreign embassies are not manifesting alarm. They are expressing confidence that the government will be able to handle the situation and that there is nothing now warranting apprehension for the lives or safety of their fellow countrymen. The authorities insist that the danger of the situation is exaggerated, continuing to resist the idea of a revolution and maintaining the stability of the government to meet all emergencies.

Gen. Trepoff, the former chief of police of Moscow, has been appointed governor-general of St. Petersburg and the post of prefect of St. Petersburg has been abolished.

St. Petersburg will be declared in a state of siege tomorrow, Gen. Trepoff has taken up quarters in the Winter palace. Strangely enough, the only precedent is the case of Gen. Trepoff's father, during the reign of Nihilistic terrorism under Alexander II., and it is also a strange coincidence that unsuccessful attempts were made on the lives of both Gen. Trepoff is a man of great energy, but the measures he adopted at Moscow for suppressing the student demonstrations in December last, provoked much resentment and the revolutionists recently condemned him to death.

More Troops Brought In.

This morning several thousand additional troops were brought into the city and placed in barracks and machine guns were placed at several points. Daylight revealed that a number of store fronts had been wrecked during the night.

Enormous crowds of strikers and many sightseers, encouraged by the mild weather, were promenading the sidewalks this morning and the street cars were again in operation. Several men distributed proclamations. The people formerly were shy of accepting such documents, now they are eagerly accepting them and have nicknamed them "Isotochke" ("Swallows") an allusion to the spring which has become a synonym of revolution. They are all signed by "The Russian Social Democratic Labor Party." One proclamation dated January 22, reads: "Comrades:—So long as autocracy exists no

improvement in our condition is possible. Therefore we continue to inscribe on our banners the following demands:

The immediate cessation of the war.

The summoning of a constituent assembly of representatives of the people elected by universal and equal suffrage and direct, secret ballot.

Want Class Privileges Abolished.

The removal of class privileges and restrictions.

The inviolability of the person and domicile.

Freedom of conscience, speech, the press, meetings, strikes and political associations.

A second proclamation, dated January 23, says:

The proletariat of all countries are united. Citizens, you yesterday witnessed the bestial cruelty of the autocratic government. You saw blood flowing in the streets. You saw hundreds slaughtered, defenders of the cause of labor. You saw the death and heard the groans of wounded women and defenceless children. The blood and brains of workingmen were spattered around where their heads had been laid.

Who directed the soldiers to aim their rifles and fire bullets at the breasts of the laborers?

It was the emperor, the grand dukes, the ministers, the generals, the nobles of the court. They are the murderers. Slay them.

To arms, Comrades. Seize the arsenals and the arms at the depots and at the gunsmiths. Lay low the prison walls. Liberate the defenders of freedom. Demolish the police and gendarmerie stations and all the government and state buildings.

We must throw down the emperor and the government and must have our own government.

Long Live the Revolution!

Long live the revolution.

Long live the constituent assembly of representatives of the people.

A third proclamation appeals to the people not to attempt to injure private property.

Gen. Prince Vasilchikoff, commander of the guards, has not yet announced the stringent rules usually accompanying a state of siege. The authorities evidently are still confident that they have the situation well in hand.

There is no confirmation of the report that the emperor, the empress and their children are going to Copenhagen or on the other hand that the emperor has decided to appoint a mixed commission of official employers and workingmen to consider the strikers' demands, notably the question of eight hours work a day, and to make an investigation of the shooting of the strikers.

All sorts of rumors are circulating in both official circles and among the workingmen. A curious report spread among the men last night that the emperor had given in and that three white flags had been displayed over the Winter palace, signifying that he had consented to reduce the maximum legal hours of work from 11 to eight. According to this legend the emperor would have displayed a red flag, if he had decided to refuse the strikers' request.

Many workingmen, deceived by this rumor, shouted "Hurrah!" in token of victory and this possibly was the reason that the strikers, believing they had already won, refrained from committing excesses yesterday.

No Collisions in Afternoon.

Although the crowds on the Nevsky Prospect continued to increase during the afternoon, just as they did yesterday, there were no collisions. Moreover, during the day several of the smaller mills resumed work.

In certain quarters, where the woes of Russia are always laid to the door of Great Britain, the feeling against the British has become intense, it being charged that the British are furnishing money to bring about a revolution.

Cossacks, while dispersing a crowd of strikers about 4 p. m., drew their swords and wounded several men. Work has been suspended at the works of the Belgian Electrical Company, which furnishes the majority of the electrical supply of St. Petersburg.

The lower section of the Nevsky Prospect, including the Winter palace district and the quay where the embassies are located, were in darkness this evening.

An official account of yesterday's events is as follows: "During Monday there were no collisions between the rioters and the troops. Detachments of soldiers had no need to use their arms as the crowds dispersed when the troops appeared. In the course of the day an attempt was made to attack Gostinny Dvor market but it was repulsed. Workmen at the electric stations joined the strike in the evening. Then some groups, taking advantage of the darkness, began to break windows in the shops, but order was everywhere quickly restored. No person was killed or wounded on Monday. The exact number killed on Sunday was 96; wounded, 333, of whom 53 were treated at the ambulance stations."

COLLECTION OF MONEY FOR STRIKERS FORBIDDEN

German Police Authorities Consider the Calm Attitude of the Miners as Remarkable.

[Associated Press Cable to The Gazette.]

ESSEN, Jan. 24.—The mayor of this city has issued an order forbidding the collection of money to assist the striking coal miners. The authorities of Bochum have taken similar action. Cardinal Kopp of Breslau has contributed $750 to the aid of the strikers as an expression of his sympathy. The electric railways still have enough coal for a few days.

GLADBACH, Jan. 24.—Three large factories here have notified most of their workmen that they intend to close down on account of the scarcity of coal.

HANOVER, Jan. 24.—The Misburg cement works here have closed for want of coal.

COLOGNE, Jan. 24.—The calm attitude of the strikers is regarded as being most remarkable by the police authorities throughout the coal mine district. Although detachments of police from other parts of Germany continue to arrive they have so far been unnecessary.

GLASGOW, Jan. 24.—A meeting of the Scotch miners' federation today adopted a resolution of sympathy with the Westphalian strikers and instructed the delegates to the British miners' federation to urge that all possible financial support be given to the German miners.

TERRORIST PLAN NOT APPROVED

Czar's Ministers Wash Hands of Responsibility for Sunday's Butcheries.

WORST IS YET TO COME

[Special Cable to The Gazette.]

(Copyright, 1905, by New York Herald Co.)

LONDON, Jan. 24.—The Daily Telegraph has received the following from St. Petersburg at 8 o'clock this evening.

Over the Gatchena palace no imperial flag was waving and rumors were rife a few minutes ago that the czar and czarina had suddenly left for Livadia in the Crimea, but in response to inquiries a court dignitary, who refused to give any positive information respecting the whereabouts of the emperor, assured me the rumor was groundless.

I am informed on excellent authority that the principal ministers are wholly out of sympathy with the acts of personages who have been responsible for the public order since Saturday night. They wash their hands of everything, but lacking means of expressing this publicly, assure their friends they condemn the whole course adopted by the government since Saturday evening, when the emperor, having heard of the intention of the workmen and having listened to the suggestions of Grand Dukes Vladimir and Sergius, approved the policy of "firmness," recommended by his relatives, and definitely took his stand against the men who are now known to be the spokesmen of the whole Russian nation.

The assistant minister of the interior, M. Rydzeffsky, who was the head of the police down to Saturday last, remarked to friends of mine half an hour ago, that tomorrow and Thursday would be the very worst days in St. Petersburg and that the revolutionary masses would probably visit private dwellings and take whatever they wanted; but, he added, they would doubtless refrain from harming those who refused them nothing.

A number of wealthy young officials are leaving town tonight in consequence of fears entertained that tomorrow trains may cease to run, and reports have reached us that in the provinces on several stretches of the railway line in Central Russia, especially in the government of Tula, the rails have been torn up by the people, but again repaired by the troops.

Recent events have shown the necessity for the adoption of measures for the preservation of state institutions and public security adapted to the extraordinary circumstances of the times. On this account we have considered it necessary to create the office of governor general of St. Petersburg on the basis of the provisions of the law prescribing the duties of chiefs and governors general and of the following regulations:

First, The city and government of St. Petersburg are placed under the authority of the governor general.

Second, In questions where the maintenance of state institutions, and public security are at stake all the local civil authorities and all the educational institutions are made subject to the governor general.

Third, The governor general has the right, with the assent of the minister of interior to enforce measures sanctioned by article 140 of the censorship statute.

Fourth. Apart from the right of making obligatory the regulations in accordance with law providing for stricter maintenance of order, the governor general will be empowered to make obligatory the regulations affecting objects or property of any kind in the interests of public tranquility and order in his jurisdiction, while in cases of violation of these regulations the penalties and methods of procedure prescribed in articles 15 and 16 of the law for the stricter maintenance of the order are to be adopted, whereby the governor general can commission the governor and perfect of St. Petersburg, who are subject to him, to deal with said cases.

IS ABSOLUTELY FALSE, SAYS COUNT CASSINI

Ambassador Declares Printed Story of His Excited Demeanor Is Baseless.

[Special Telegram to The Gazette.]

WASHINGTON, Jan. 24.—At the Russian embassy this afternoon the following official statement was made:

"On behalf of himself and of his staff, the Russian ambassador is compelled to notice a libelous signed statement printed in a morning newspaper which purports to quote a Russian official whose position is almost as high as Count Cassini himself,' and which makes this statement regarding the Russian ambassador:

"'I am further informed that late last night Count Cassini, the Russian ambassador at Washington, received important dispatches from his government. On reading them the count was greatly agitated. His face turned white. It was only with the greatest difficulty he could speak. He wrung his hands and walked the floor, muttering imprecations upon those in authority who had through their criminal blundering brought this awful woe upon his country.'

"The ambassador declares every word in the above paragraph to be entirely and absolutely false and that the whole article is an outrageous slander upon himself and each member of the staff, who collectively constitute Russia's entire official representation at Washington."

REFUGEES BRING STORY OF WHOLESALE MURDER

Whole of Inland Russia Is Aflame With Revolution Spirit, They Declare.

[Special Telegram to The Gazette.]

PHILADELPHIA, Jan. 24.—Reports of atrocities, massacres and uprisings in Russia, of which the outside world has heard little or nothing, were brought to this city by 450 refugees who landed this afternoon from the American line steamship Friesland. They say thousands of Russians have been murdered, and the outside world has heard nothing of it. They say almost every town in Russia is in arms against the government, and that the revolution now started is a well-planned affair. Ammunition and supplies have been secreted in many places unknown to the government officials.

The refugees declare that when the call is made every village and town will turn out its quota of men to join the vast army which will march to the capital and besiege the city.

the Constitution and laws, so help you God."

As soon as the house could be informed the managers of the impeachment were announced and demanded that a process be issued against Judge Swayne. A resolution was passed directing that an order be issued for Judge Swayne, returnable on Friday at 1 o'clock.

The senate as a court then adjourned, and Mr. Frye resumed the chair, the senate proceeding in regular session. The conference report on the Philippine railroad bill was agreed to without discussion. Mr. Proctor, from the committee on military affairs, reported the army appropriation bill.

Routine Business Calendar.

A resolution calling upon the commissioners of the District of Columbia for a statement giving the number of convictions for wife beating in the district in the years 1900, 1901, 1902, 1903 and 1904, introduced by Mr. Gallinger, was adopted, as was also a resolution by Mr. Stewart, calling upon the interstate commerce commission for a list of the stockholders in railroad corporations in the United States.

Mr. McComber spoke in support of his amendment to the statehood bill, providing for the admission of each of the four territories as a state. Mr. McCumber and Mr. Beveridge engaged in several spirited controversies as to the qualifications of a territory for statehood. In one of these encounters Mr. McCumber asserted that every Indian had been taken "on trust," to which Mr. Beveridge replied that even if this had been true, that state had been able to furnish acceptable collateral.

At 4:30 p. m. the senate went into executive session and five minutes later adjourned.

Summons Served on Swayne.

The District of Columbia appropriation bill again occupied the attention of the house of representatives today. At times the proceedings were enlivened by vigorous remarks in defense of a proposition to increase materially the salaries of Washington school teachers, who had many supporters on the floor.

Mr. Clark of Missouri, in a characteristic speech, said that more money was being paid Washington policemen to crack the skulls of the people than was paid to school teachers to improve what was in the skulls. An adjournment was taken without having concluded consideration of the bill.

WILMINGTON, DEL., Jan. 24.—Sergeant-at-Arms Ramsdell of the United States senate arrived here this evening and served the summons of the senate upon United States Judge Charles Swayne of the Northern district of Florida, to appear before the senate on Friday next to make answer to the impeachment charges. Judge Swayne accepted the summons. He is visiting his son, who is a lawyer of this city.

NOT CONQUERED, DECLARES GOPON

Tells Followers to Destroy Portraits of Bloodthirsty Czar. Vengeance Is Promised.

POLICE HUNTING FOR HIM

[Special Cable to The Gazette.]

ST. PETERSBURG, Jan. 24.—The police are seeking Father Gopon, who will be dealt with summarily under the martial law if he is caught, but he is hiding with trusty friends who declare he is unhurt and busy keeping up the spirits of the workmen. Gopon has issued several proclamations, one of which says:

"Brothers, Workingmen—The innocent blood of the people has been spilt. We harbor sentiments of bitterness and vengeance against the bestial czar and the jackals, his ministers, and believe me, the day is very near when the host of workingmen will rise, more menacing, more conscious and like one man will strike for their own freedom and the freedom of all Russia. Weep not for slain heroes. Be comforted. Beaten we have been, but not conquered. Let us tear up all portraits of the bloodthirsty czar and say to him, 'Be thou accursed with all thy most august reptile blood.'

"GEORGE GOPON, Priest."

Another proclamation reads:

"Workingmen and brothers of workingmen whose chalice has been filled with blood: We intend to go peacefully to the czar with a petition on Sunday. Of this intention we informed his Mameluke ministers beforehand, requesting them to withdraw the troops and not hinder us from approaching our monarch. To the emperor himself, in Tsarskoe-Selo, I forwarded a letter January 19 requesting him to come forth to his people with grateful heart and courageous soul. At the price of our own lives we guaranteed him inviolability of his person. And what came of it, innocent blood was shed. The miscreant czar and his malicious officials who are robbers of the treasury and plunderers of the Russian nation, deliberately resolved to beat and massacre our unarmed brothers, their wives and children.

"The bullets of the emperor's troops, which at Nerva street, killed workingmen who were bearing the emperor's portraits pierced those portraits and killed out faith in the czar, but we shall wreck vengeance, brothers, on the czar, accursed by his people, and on all his imperial reptilian blood; on his ministers and all pillagers of our ill-started Russian land. Death to them all. I call upon all who are seriously desirous of helping hard-working Russian people to live and breathe freely to come forward and assist when and how they can. I call upon all thinking men, upon students, revolutionary organizations, social democrats and social revolutionists to lend a hand. He who is not with the people is against the people."

CAUFIELD MUST EXPLAIN.

Street Car Conductor, Who Is a Book Agent, Under Arrest.

Special Officer John Morgan yesterday arrested W. J. Caufield, a book agent, who is being held as a suspicious person at Central station pending an investigation by the police. The prisoner is an agent for the Clarkson & Cooper Publishing Company of Chicago, and is also a conductor on the Perrysville avenue line of the Allegheny.

The police have received several complaints about Caufield employing agents, requiring them to deposit $7 50 for their samples and position, and then failing to pay their salary, $50 a month, and commissions on their sales. Caufield secured his agents by advertising. He always arranged to meet applicants at hotels, and after securing their money it is said he could not be found again. Caufield says he lives at 207 West End avenue, Allegheny.

Injunction Against Penney Dissolved.

ALTOONA, Jan. 24.—(Special.)—An injunction brought by Frederick Bland, a farmer of Antis township, to restrain the Pennsylvania Railroad Company from piping the water of Spicer run to their shops here, was dissolved in the county court today. The company filed bond for $10,000 in order to be permitted to take the water, this bond to be held until further decision is made regarding the ownership of the stream. It was contended that should the injunction be enforced the big shops of the Pennsylvania Railroad Company here would be compelled to close for want of water.

GRAND DUKE IS NOT WORRYING

Vladimir Says Order Is Expected from Prompt Energetic Measures.

ADMITS CRISIS IS ACUTE

[Special Telegram to The Gazette.]

NEW YORK, Jan. 24.—The Hearst News Service tonight obtained for publication the first official statement from a representative of the czar to any newspaper in the world, since the uprising broke out in Russia and the massacre of men, women and children was begun in St. Petersburg. It is in the form of a signed cablegram from the Grand Duke Vladimir, uncle of the czar. It was Vladimir who on Saturday last personally took control of the military and police arrangements in St. Petersburg. It was by Vladimir's orders that the military fired mercilessly into the crowd of pleading strikers, with their women folks by their side. It was by Vladimir's persuasion that the czar fled from St. Petersburg.

Vladimir is now practically dictator of St. Petersburg. He represents personally and officially the czar. This cablegram from Vladimir was in response to a direct request from the Hearst News Service that the czar or his representative should give to the American people, through the Hearst newspapers, some statements of how the czar and his ministers regard the present situation in Russia. Vladimir's cablegram was sent direct from the grand duke's palace. His action is a precedent in the history of autocratic Russia.

Palace of the Grand Duke Vladimir,
St. Petersburg, January 24, 5:30 p. m.
To The New York American, New York, U. S. A.:

Reports sent from St. Petersburg of the occurrences here have been greatly exaggerated. No doubt we are passing through an acute crisis, but we expect by energetic measures to restore order within a short time.

PRESIDENT GAVE IRISH PEDIGREE

Then American Irish Historical Society Sang Roosevelt Brian Boru.

ANCESTORS IN THIS STATE

[By Associated Press to The Gazette.]

NEW YORK, Jan. 24.—The annual meeting and dinner of the American Irish Historical society was held tonight at the Hotel Manhattan. President Roosevelt, a member of the society, had been expected, but through his secretary sent his regrets, adding he expects to be able to attend the dinner of the Friendly Sons of St. Patrick at Delmonico's March 17. Judge Thomas Z. Lee of Providence, R. I., then offered a toast to "Theodore Roosevelt, the best president the United States ever had," which was drunk standing and with cheers.

A demonstration, vociferous and prolonged, attended the reading by Justice O'Brien of the following letter, written by President Roosevelt to William Montgomery Sweeney, a son of the late Gen. Thomas W. Sweeny:

Replying to your letter of the 14th inst., I would say that my Irish ancestors came to Pennsylvania early in the seventeenth century. They included John Potts and his wife, Elizabeth McVaugh (so set down in the records; I do not know what the real name was); John Barnhill, whose wife was Sarah Craig, and a man named Lukens, who may have been a German from the Palatinate. They were all of them humble people, farmers, mechanics, etc., although Sarah Craig is put down in the book as being descended on her mother's side through the Barnwalls, from various well-known Irish families, both of the pale and outside the pale—the Butlers, the Fitzgeralds, O'Neils and O'Briens. But about this most illustrious descent I fear I cannot give you any specific particulars.

Then the guests shouted and sang "Roosevelt-Brian-Boru."

The following officers were named: President-general, Hon. John O. Crimmins, New York city; vice president-general, Hon. Joseph T. Lawless, Norfolk, Va.; secretary-general, T. H. Murray, Boston, Mass.; treasurer-general, Hon. John C. Linehan, Concord, N. H.; librarian and archivist, Thomas B. Lawler, New York city.

TO ORGANIZE BELLEVUE.

Date of Primaries Fixed by Political Parties in Three Boroughs.

Bellevue Republicans at a meeting last night in the Second ward school house decided to form a party organization. This is said to be the first attempt since 1867 to perfect a Republican organization in Bellevue. W. B. Kirker was chairman of the meeting, F. C. Sykes, secretary and G. F. Wright, treasurer. A suggestion meeting will be held Friday evening. A committee on rules was elected. The primaries will be held January 31.

Citizens party workers in Ben Avon held a primary election last night and nominated the following for borough offices: Council, T. J. Evans, J. K. Turner, T. B. Wolff; school directors, the Rev. Dr. W. S. Harper and Charles F. Harwood; auditor, William H. Sturgeon, Jr.; constable, Otto Zieger.

The Republican committee of McKees Rocks last night decided to hold a suggestion meeting Thursday evening. The primaries will be held Saturday.

FEW CHANGES MADE.

Not Many Cuts Being Ordered in Allegheny Department Estimates.

The committee on appropriations of Allegheny councils last night considered the estimates of the departments for the ensuing year. The estimate of the department of charities was recommended without change, and in the public safety estimate only some slight cuts were made. The committee suggested that $8,000 be spent in improvements on the market house instead of $6,000.

From the estimate for the Carnegie library $2,700 was cut. This gives the library $1,700 more than was allowed last year. The increase is made necessary by the juvenile department added last summer through the efforts of Mrs. Francis J. Torrance.

Controller Brown was not ready to submit his estimate of the receipts for the coming year, and the committee adjourned until tomorrow evening.

INQUIRY IS STARTED.

Wilkinsburg Council Hears Testimony of Five Persons and Adjourns.

Wilkinsburg council last night started the investigation of charges implicating certain of its members and the whereabouts of $300, the difference between the price received and the price paid for a certain plot of land purchased by council for a pest house. Councilman Samuel Thompson was cleared of blame. He was represented by Attorney R. M. Ewing and council by Attorney James Balph. All members of council were present.

A. E. Gillespie, the real estate agent who negotiated the sale between the owner of the land, Mrs. F. Sanderman, and council, admitted in examination that he bought the land for $950 and sold it to council for $1,300. He stated no person but himself knew about it. Five witnesses were examined. The inquiry was adjourned until Monday.

NO NEW CASES.

District Attorney Stewart and Assistants Preparing Bills for Grand Jury.

District Attorney Robert E. Stewart and Attorney John C. Haymaker were busy yesterday preparing cases for the grand jury in the Allegheny graft affair. Mr. Robb was engaged in court and John Marron had some personal business that demanded his attention.

No new informations were made, and unless Supt. M. H. Campbell of the Allegheny police goes into a hearing this afternoon at Alderman Toole's office it is not likely anything sensational will be made public until late in the week. Campbell was to have had a hearing yesterday afternoon, but it was postponed at the request of Attorney S. S. Robertson, Campbell's counsel.

Street Commissioner Charles Striepeke, who is charged with extortion and aiding in the maintenance of a disorderly house, will have a hearing before Alderman Toole Friday afternoon.

ANNUAL MILITARY BALL.

Gens. Miller and Wiley to Attend the Eighteenth Regiment Function.

Unusual preparations are being made for the annual ball of the Eighteenth regiment to be given in the drill hall of the armory at Forbes street and Craft avenue February 28.

The most prominent officers of the state guard and military men from New York, Ohio, West Virginia and New Jersey are expected. Among those who have promised to attend are Maj.-Gen. Charles Miller and Gen. John Wiley.

The Parsifal Chorus.

More than 1,200 applicants were examined for admission to the flower maidens' chorus in "Parsifal," which Mr. Savage's company will present at the Nixon theater next week. Notices of the unusual chances for their pupils to get a schooling under a Wagnerian conductor were sent to singing teachers all over the east, and the responses were overwhelming.

Mrs. E. McMullen Is Dead.

Mrs. E. McMullen, aged 48, widow of Prof. W. H. McMullen, who died three months ago, died yesterday morning at the McKeesport hospital, where she had undergone an operation. She was a member of the First Presbyterian church, McKeesport, of which city she had been a life-long resident. Prof. McMullen was for 20 years actively connected with the city schools.

FLOWERS IN PROFUSION AT YALE'S SWELL "PROM"

Pittsburghers Prominent at Brilliant Event at New Haven—Supper Served in the Boxes.

[Special Telegram to The Gazette.]

NEW HAVEN, CONN., Jan. 24.—Suggestions of economy in flower bills were only heeded by a few Yale men who had "prom" guests tonight and aproximately $10,000 has been spent on flowers for the "1905 prom girl" by juniors and seniors who were asked to omit flowers this year, because such gifts were "a needless expenditure."

Between 400 and 500 couples appeared for the grand march that opened the "prom" at 9 o'clock tonight in the Second regiment armory. Half as many more persons, chaperones, fathers and mothers and professors of the university and their wives, were in the 54 boxes ranged along the walls. The handsome gowns of the beautiful girls made the scene brilliant and contagiously joyous.

Forty-one dances were on the program, broken about midnight by supper served in the boxes. It was after dawn when the dancers left the ball room. Among those in the box of the junior committee were: Miss Katherine Jennings and Mrs. James Neal of Pittsburgh. Others from Pittsburgh were Mrs. Benjamin Thaw, Miss Emily Lyon, Miss Jean Oliver, Miss Margaret Frew and Miss Mary Flinn.

OFFICERS WORK ON CLUES.

Expect to Make Arrests in Lance Robberies Case by Tomorrow Night.

BEAVER, Jan. 24.—(Special.)—County Detective Lazarus and Detective McCain, who have been working on new clues in the Lance robberies case since Monday morning, have made no arrests yet, but have reason to believe that suspects will be in custody by Thursday night. Lazarus returned tonight from Washington county, and after half an hour at his home in Rochester, went to Beaver Falls and later to Pittsburgh. Tomorrow he will resume his work on valuable clues.

The revolver which young Arthur Harris had in his pocket when he was shot by William McHendry at the Lance home will, the detectives say, play an important part in unraveling the mystery surrounding the series of robberies and the killing of Harris.

Nat Wills Coming to the Duquesne.

The press and votaries of the theater in all the larger cities that have been visited this and last season by Nat M. Wills in Broadhurst & Currie's big musical organization, "A Son of Rest," have been unanimous in according the highest meed of praise to them for the bright singing numbers, the clean and up-to-date wit, and the freedom from all objectionable features in their production.

Carnegie Helps Pipe Organ Fund.

UNIONTOWN, PA., Jan. 24.—(Special.)—Word has been received that Andrew Carnegie will pay half the $2,500 for a pipe organ at the Second Presbyterian church of Uniontown. The congregation has raised the other $1,250.

REVIEWED INFLUENCE OF "PROGRESS AND POVERTY"

Noted Men Speak at a Dinner Commemorating the Publication of Henry George's Famous Book.

[By Associated Press to The Gazette.]

NEW YORK, Jan. 24.—The twenty-fifth anniversary of the publication of Henry George's "Progress and Poverty," was commemorated tonight at a dinner at the Hotel Astor. Representative speakers reviewed the influence of the book. Hamlin Garland presided, and the speakers were William Jennings Bryan, Louis F. Post, William Lloyd Garrison and Henry George, Jr. Mr. Garrison said in part: "Benevolence is a safety valve for kindly natures, and charity, in the sense of alms-giving is a fashionable and convenient virtue. Both seem to be compatible with injustice. Certainly they find signal exemplars among the men and classes powerful through ill-gotten wealth. Yet while the most unexampled giving to libraries and universities goes on, public morals are at their lowest and democratic government trembles in the balance. The magnitude of gifts to institutions is equaled only by the unblushing abjectness of recipients. Tainted money finds no lack of respectable outstretched palms."

TO BUILD A FLOOD WALL.

Plan to Save Sharpsburg from Damage by Floods.

A special meeting of Sharpsburg council was held last night at which damage from flood by the Allegheny river and Seitz run was discussed.

An ordinance was passed authorizing D. M. Kirk, the owner of property adjacent to Seitz run, to construct a retaining wall 400 feet long and eight feet high between Middle and South Canal streets, to prevent inundation of his land. The owner will bear the expense, while the borough will build bridges where the streets cross the stream. The property adjoining Seitz run has suffered heavily through floods.

Sold Wagon, but Returned Horse.

W. A. Patterson of Braddock last night was committed to jail by Justice Frank Redman of that place on the information of C. P. McAuliffe, who alleged Patterson stole a wagon from him. McAuliffe loaned Patterson his horse and wagon to do some hauling. McAuliffe sold the wagon for $3 50 and returned the horse. The wagon was valued at $50.

Held on a Larceny Charge.

Millions of people use Liquozone now. Some are neighbors of yours---ask them what it does. Then ask us for a bottle free.

The people of nine nations use Liquozone now. No medicine was ever so widely employed, nor so widely prescribed by the better physicians. Nearly half the people you meet—wherever you are—can tell you of remarkable cures that were made by it.

Millions who were sick are well today because of Liquozone. And millions who are well use it, as we do, to keep well. They use it to ward off germ attacks, and as a source of vitality. Those who don't use it simply don't know what it does. They don't know what they miss, or what they could save by it. If you are not using it, will you let us buy a 50c bottle and give it to you to try?

We Paid $100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals. After proving, in thousands of difficult cases that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of $1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is evitable.

JOSEPH HORNE CO.
Weather—Fair and Cold. Yesterday's Temperature—Max. 35; Min. 19.
Wednesday, January 25, 1905.

THE lessons in Hardanger Embroidery will begin today in earnest—yesterday being given over to sort of primary lessons. The art of executing this Norwegian embroidery will be taught by Mrs. Clara E. Bye, a Philadelphia woman who introduced it into this country. Morning lesson from 9 to 11; afternoon lesson from 2:30 to 5—Restaurant. The price of the lesson is 50c, and it is well worth it—enough material thrown in, too, for the beginner to practice upon. A complete Book of Instructions, the work of Mrs. Bye, $1.00, the amount including a first lesson.

THE time is drawing to a close for Mrs. Haxworth-Wallace to discontinue her cooking talks. Her engagements in other cities prevent us from having her with us longer than this week. Today she will discuss Broiling, Stuffing or Filling and Soups. Many women fall in the art of making good stuffing, and those who desire to learn are invited to attend this afternoon's session from 3 to 5 o'clock. Among other things this afternoon, Mrs. Haxworth-Wallace will tell the best method of making Cream of Clams, Beef Olive and Parsley Sauce.

One Thousand Shirtwaist Patterns, 75c Each.

Nine women out of ten in the thousands who have frequented this store the past four or five weeks know of these waist patterns—many of the women know we have been selling them faster than the manufacturer could ship them. There never was anything like these handsomely embroidered patterns, for 75c. They have, so to speak, created a perfect furore.

They are the kind of a pattern that sells in everyday retailing for $1.50, and they are excellent value at that figure. We are glad to be able to sell such a splendid value for such an underprice.

By vehemently urging the maker to let us have a good shipment, so we would not run out, as heretofore, in a day or so, we are pleased to state that today 1,000 of these beautiful lawn shirtwaist patterns—twenty-five different arrangements of embroidery—the material of beautiful lawn, will be offered for the telling price of 75c each.

What the Lady Said.

She was a much traveled woman, and a day or so ago was in our House Furnishing Department, West Basement, merely looking around, and her eye caught a sign reading: "These Coffee Machines $2.25."

Amazement was in her eyes. She stated that two years ago while in Berlin she paid $12.00 for the same sort of Coffee Machine, brought it over with her, paid Uncle Sam $3.70 duty and presented the machine to a friend. At that time the lady was boarding—now she is keeping house.

Her astonishment of course arose over the fact that we were selling the Eicke Coffee Machine for $2.25, the same one she paid $12.00 for and $3.70 duty. She volunteered the information that she never had as fine a cup of coffee as that made in the Berlin machine. One went out to her house the same day—seven or eight Eicke machines went out simultaneously to other homes.

It's just like any other piece of fine mechanism—if you understand how to operate it, it does its work in the best possible manner; if you don't understand its workings you will not like it. We'll show you how to use it to perfection.

We might say that these Coffee Machines we are selling for $2.25 are on the market throughout the country at $8.00 and up to $15.00, according to finish.

Will Glasses Improve the Looks?

Verily. The more so if the person happens to be one of those who will not give in to the ravages of Time. There are many such. Every day you will notice someone pick up an article or paper and hold it away from the eyes. That act means "Specs."

A pair of neat eyeglasses rather become the contour of the face, and why it is so many people object to a trial, knowing that they must sooner or later have glasses, is quite singular.

If you need glasses get a pair and use them at night for reading, if you won't content to wear them during the day. Consult our optician. This week we are selling 10 karat solid gold Rimless Spectacles worth $5.00 for $3.75, and 12 karat gold filled Rimless Spectacles worth $3.50 for $2.25.

Women's New Kid Gloves for $1.00.

We are showing a new and beautiful assortment of our very popular Warwick Gloves. The Warwick is an English Cape Glove of heavy leather and is one of the most perfect street gloves we have ever had in the store. It is a one-clasp length, finished with Paris point embroidery. Many $1.50 gloves are not its equal.

Another line of new kid gloves selling for $1.00 a pair, comprises gloves made of dress kid—light and medium weight—all colors, including white and black. This fine imported kid glove comes in two-clasp length and is equally admirable for street or evening wear.

China's answer to the Russian charges of violation of neutrality considers the matter in detail and makes out a good case. There is something pitiful in its tone, which is timid and apologetic. There is a touch of abasement in the way it protests the peacefulness of its people, which is declared to be much appreciated by the powers. In view of the fact that a terrific war is being waged upon its soil, a love of peace carried to such a point as to make a nation unable to protect itself is exhibited as a national sin.

There is further confirmation of the purpose of Mr. Henry Phipps to erect modern, sanitary tenements in Allegheny, with additional particulars. It is said Mr. Phipps' Allegheny project will be conducted on different lines from that in New York, the management to be in the hands of his personal representatives instead of a committee. In this case there is no intent to make money from the enterprise. It will be made self-supporting in general plan, though the management to be provided may make exceptions from general rules. This departure of Mr. Phipps is certain to attract the widest attention, for the tenement house problem is one of the most serious that confronts every city of consequence. If it is solvable Mr. Phipps is a good man to seek the solution.

The effort made by President James B. Angell to resign at the University of Michigan and the refusal of the trustees to consider it calls attention to the fact that he has served in that capacity for more than a quarter of a century. In addition to his educational duties he has been minister to China and to Turkey, besides acting on the joint commission on waterways with Canadian members. It was while he was a college professor that Senator Anthony recognized his ability by selecting him as active editor of the Providence Journal. Subsequently he was made president of the University of Vermont and was called to Ann Arbor in 1871. It is evidence of his marvelous physical powers that he has retained his faculties so as to conduct a great university when he is over 75 years old.

Gov. LaFollette's election as senator in the congress of the United States by the Wisconsin legislature yesterday completes his triumph over what is known as the "stalwart" faction of the Republican party in that state. His opponent was Senator Quarles, who desired to succeed himself. Gov. LaFollette is a radical leader. He has espoused the cause of the extremists in the repression of corporate power and in many quarters has been regarded as a dangerous man. It appears, however, that he enjoys the confidence of the people of Wisconsin to a decisive degree, for the present. His advance from the governorship to the senatorship may tend to make him more conservative. If not it will place him in a body that can be counted upon to repress his excess of enthusiasm and which will not be injured by a moderate infusion of aggressive blood.

For years Mayor Johnson of Cleveland has been trying to secure 3-cent fares on the transportation lines in that city and to his agitation is due the credit of the trial being made there. It was a decided victory to have forced the street railway company to make the experiment, although it is done in a half-hearted way and on a limited zone. The company says that it is only an experiment, which will be abandoned if it does not pay, and a failure has been anticipated in the wording printed on the tickets, which states that they are good for 3 cents "toward the payment of a fare." Thus they can be redeemed if the lines restore the old rates. It adds to the confusion, moreover, to have only a few cars with the lower prices, as passengers are likely to take the next car going in their direction in spite of the fare. But the change has increased the efficiency of the service, for there are more trips and now almost everyone is sure of a seat.

Justice Warren B. Hooker of the supreme court of New York state has yielded to the voice of public sentiment and asked the legislature to investigate the charges brought by the Bar association which that organization voted by a narrow margin not to press. In his letter he says that prominent lawyers and newspapers are insisting that an investigation should be made and that these "demands must have impressed the public." An accusation was made that a man who owed Mrs. Hooker a sum of money was appointed to a place in the Fredonia postoffice at the judge's solicitation, and that he did nothing but draw his salary until it canceled the obligation. Meanwhile the Bar association, which was moving to call another meeting, will probably defer action to see what the legislature does. If the justice has any personal pride he could not allow the condemnation of his associates in law pass unnoticed, especially since it was of a non-partisan character.

In the Cause of Truth.

The headline and editorial characterization made by the Pittsburgh morning papers of the new press law shows that its provisions are not comprehended. The Post and Times both describe it as a libel bill; the Dispatch describes it as a press muzzler, and in an editorial article under the caption, "Who's Afraid of the Light?" refers to those seeking a correction of press abuses as "asses." Upon examination of the proposed law it will be seen at once that it is not a libel law and has nothing to do with any sort of action for damages, but provides a method to secure correction of false statements for the vindication of personal rights. If there is anybody afraid of the light it must be newspaper publishers opposed to this law, for all it does is to provide means for securing retraction of false statements. The truth is a perfect defense, and if any facts are in dispute the law provides that a jury trial shall be awarded. But the law does provide that a newspaper making false statements shall retract them. Is this anything more than any honorable man would regard as due reparation? Do newspapers desire to be classed as being outside of the pale of honorable obligation?

The assertion made in the Post that under this law "a newspaper publisher might be compelled to go into court half a dozen times a day" imputes a recklessness of statement to the press which would afford the strongest possible argument of the necessity for just such a law. But we do not think that this imputation upon the press is justified. Most newspapers use due diligence, and if they fall into error are glad to make correction. The proposed law, while drawn for the protection of the public, will also serve as a protection to honorable newspapers and will be found restrictive only by papers which deal in calumny. That there are such papers is notorious and their activity is discrediting the press as an institution. Talk about muzzling the press is manifestly absurd. The proposed bill puts no hindrance in the way of any publication a newspaper chooses to make, but if the statement is false it enables an aggrieved person or corporation to secure a correction, which is just what any decent newspaper should desire to make on discovery of error. It is in no sense a press muzzler, but it is a truth compeller, and newspapers denouncing it exhibit themselves as champions of lying journalism.

The Santo Domingo Receivership.

So many precedents have been established by the United States during the last few years that our action in taking custody of the finances of the restless nation of Santo Domingo scarcely attracts attention. It is not easy to realize that in assuming this responsibility we are taking the most important step to perfect the principle of the Monroe doctrine, for hereafter we cannot refuse to accept the task of straightening out the financial obligations of any nation south of us which has grossly failed in international duty. While in a sense we do not assume responsibility for its behavior, the pledge to act as receiver is a promise that we will give our time, attention and moral influence to the adjustment of its affairs. Moreover, an oversight of the customs houses and the restoration of a stable government which are essential to a resumption of credit mean nothing else than a guardianship.

While the island is one of the oldest lodgments of European civilization in the new world, it has been in a state of almost chronic civil war. England found a similar turbulence in Jamaica, and after years of fruitless attempts to pacify the people she decided that only the civil engineer could pacify the country. With railroads, good highways and other transportation facilities she has accomplished this and set an example to other colonizers. When Gen. Grant proposed in 1869 that the United States annex Santo Domingo he realized that it was the most fertile of the West India islands, although it was the most unsettled. What might have been accomplished then by making it a territory of the United States is likely to be done now by a method which secures practical control without incorporating the country in our political system.

Drifting Into Anarchy.

The most dangerous feature of the situation in Russia is not the activity of revolutionists in St. Petersburg, but the spread of revolt to other points. In this respect the movement in Moscow is even more significant than that in St. Petersburg. Moscow is a more important center of industry, and as the ancient capital and holy city of the empire it possesses an influence over popular sentiment throughout the empire such as St. Petersburg has never acquired. The news that Moscow has joined the revolt of labor against the bureaucracy will send a wave of sentiment throughout the empire that will be likely to cause similar demonstrations at many points. Already news of such outbreaks is coming in, and however energetic the authorities may be in repressing disorder the industrial resources of the empire will be paralyzed. The direct bearing of such a situation upon the military capacity of the government is obvious. To carry on an unpopular and disastrous foreign war while anarchy is impending at home is clearly impossible. Instead of forwarding more troops to Manchuria the government may be compelled to draw upon its forces there to quell the outbreaks now threatening to become epidemic.

The incapacity of the autocratic system is being demonstrated even more impressively in internal affairs than by the failure of the war. The present movement, although it has now assumed a revolutionary character, was originally the presentation of labor grievances which were at least entitled to a respectful hearing. It was entirely natural that the workingmen should want to lay their troubles before the czar, and it would have been quite in accord with the paternal relation in which the czar has always assumed to stand towards the people for the czar to have received a deputation. The affair might have been managed so as to have had a conciliatory effect, but the actual attitude assumed has been that of an oriental despot, taking refuge in mysterious seclusion while turning loose the troops upon unarmed people. The blood that has flowed has done much to dissolve the traditional affection which the people have felt for the czar and which has been the strongest prop of the imperial throne. The movement may be suppressed by military force, but it is at the cost of whatever prestige the disasters of the war have left. The spirit of national unity is lost and the empire is shown to be too distracted to be really formidable. This collapse of Russian power will have important international consequences, some of which are beginning to manifest themselves. Already the Turkish question has assumed a new phase from the elimination of Russian influence. All the old adjustments of European diplomacy have been violently deranged.

Expectations of a political revolution in Russia are likely to be disappointed. As was anticipated by The Gazette, the zemsivo leaders have been repelled by the prominence of the socialists in the revolt of the artisans, and even the Moscow reformers have sided with the authorities in the crisis. The nobility and the propertied classes in general will postpone reform demands until order is restored, and without their co-operation a revolution is impossible. The real danger is not revolution, but anarchy, and if the peasants catch the contagion of revolt there will be terrible scenes in the provinces. The influence of such an outbreak will not be confined to Russia alone and keen anxiety will be felt all over Europe until the issue is definitely known.

His Wicked Partners.

Controller Larkin is altogether right in his opposition to making any provision in the present tax levy for interest on the $5,000,000 bond issue. No part of that issue will be needed during the next fiscal year, and to issue the bonds now would simply burden the taxpayers unnecessarily to swell the accumulation of city funds in favored banks. The filtration contracts are not yet advertised and it will be over two months yet before contracts can be let. It will be as much as can be reasonably expected that the work shall begin in the spring, and then for a long time to come the work will be only simple excavation. The $2,000,000 now lying in bank to the credit of the filtration fund will be ample to cover all payments that will be required during the fiscal year. Even were there any prospect that the additional funds would be needed, the proper way to meet the contingency would be to provide for the sale of such quantity of bonds as might be needed from time to time, precisely as is done in other cities.

Controller Larkin is in a remarkable position in that he has to fight at every step his own party administration. It is the old story of the good man and his wicked partners, the good man supporting the credit of the concern while the wicked partners divide the profits. He is being run as the candidate of the Citizens party, but his success would help the leaders of the party to put through the schemes his opposition to which is his chief claim upon public confidence. Thus his success at the polls will be the defeat of his policy. If the mayor and city council decide to issue bonds the controller cannot stop them. If there is any question as to the validity of the ordinance it relates to defective action by the mayor and city council and not to any approval or disapproval by the city controller. Hence the willingness of the Citizens' bosses to run him again. No matter how he may claw and scratch they can rake the chestnuts if by using his as a candidate they can obtain a new lease of party power.

The Apportionment Bill.

Representative Robert McWhinney of the Sixth Allegheny district has introduced the legislative apportionment bill, which is identical with the one offered last session. It provides for an increase of three in the total membership in the house, so the readjustment will not cause as great losses to backward sections as might be the case if the membership was kept at the present total of 204. Allegheny county is the largest gainer, since its population entitles it to an increase equal to one-half of its present representation; that is, to 24 instead of 16 members. Philadelphia will gain two members, Fayette one and Westmoreland one.

Common justice demands this readjustment. The interests of Allegheny county have increased in proportion to the population and both should have their full meed of representation. The Eighth district, now given one representative, embracing the great towns of Wilkinsburg, Braddock and those of the Turtle Creek valley, is more populous than many counties in the state, while its business interests are greater probably than those of all of the counties that would lose representatives by the redistribution. Representative McWhinney's own Sixth district, including Homestead, Duquesne, McKees Rocks, Carnegie and Coraopolis, is entitled to more than the two representatives allowed it. In these circumstances the Allegheny delegation has good reason for urging the bill forward.

Because petitions affecting legislative bills are referred directly to the committees having charge of the bills the Times affects to see an attack upon constitutional rights. The Times is grossly ignorant of legislative practice, or wilfully untruthful. The national house of representatives long ago adopted the same rule and no right or proper privilege is denied thereby.

A new bill at Harrisburg proposes to have the hangings conducted in the penitentiaries without publicity attachment. There are some things to recommend in the plan.

A general local option bill has made its appearance at Harrisburg. Pending its fate every man has the individual option to drink or let it alone.

A law to compel retraction under circumstances where any gentleman would be eager to retract is not agreeable to some persons.

No ballot for senator has been attempted in Delaware. Well, Addicks has waited a long time and is probably in no hurry now.

A new Beaver county oil field is announced and the rush for leases is not restrained by recent cuts in the price of petroleum.

Legislative apportionment appeals to Allegheny county, which is growing more rapidly than other portions of the state.

At any rate the poor man in Russia has so little to live for that death has no especial terrors from him.

Wilkinsburg has filed a protest against its street car service. After these many days!

Another cold wave is predicted with small hope that it may be just as another was.

Talked of in Gotham

By FRANK A. PARKER.

[By Private Wire to The Gazette.]

NEW YORK, Jan. 24.—The study of sociology is the latest fad among the ultra fashionable women of New York. It is likely to cost their purses a pretty penny, and is also likely to prove a valuable help in the amelioration of conditions in the very poor sections of the city. Mrs. Clarence H. Mackay is responsible for this latest fad. She can find more ways to amuse society people than any other well-known woman of New York. Mrs. Mackay is making a study of sociology, and is genuinely interested in her work, but it is a question whether she can hold the attention of her society friends for any length of time. Fads come and go with the regularity of the seasons—only they do not often last so long. Still, as long as this fad lasts it is likely to prove of some value to the rest of the mankind, and that is something more than fads usually do.

Mrs. Mackay has now succeeded in interesting some of her friends in the work of the institutions under the department of charities and corrections, and a series of visits of observation will be made. The first of these occurs on Friday when with a small party of intimate friends, accompanied by a number of city officials and men interested in sociological subjects, she will make a visit to Blackwells island. Other similar visits will follow, it being the aim of Mrs. Mackay to became familiar with the working of the city's institutions.

If the women of society take up this fad in the right spirit much good will be accomplished, for it is ignorance of how "the other half" lives that makes most people neglectful. A sight of the misery and poverty of the poorest sections of the city is certain to touch the coldest heart, and through the heart is the easiest way to the purse. All the charitable associations are just now appealing for funds to carry on their work through the balance of the winter, and it will be much easier for them to interest people of wealth who have seen conditions as they exist among the tenements of the lower East Side.

Hard Days for the Poor.

January and February are the hardest months for the very poor. For the first few months of the winter they are prepared, but a succession of weeks of cold weather dissipate their resources, and soon after the Christmas holiday the charitable associations are taxed to their utmost to relieve all the distress. We have been having very good weather here for the past 10 days, and when the sun shines there is a noticeable falling off in the requests for aid. But today a squall of snow and a cold wind sent the poor to the relief stations in droves. The cold and snow are to continue, if we are to believe the reports of the weather, and the suffering will become more intense as the days pass. But there are ways for relieving every case of distress that becomes known. The real sufferers are those who refuse to ask charity as long as there is the slightest hope for better times to come. And there are hundreds of these cases in New York, cases that only become known when it is necessary to call an ambulance, or some member of the family falls from exhaustion in the streets.

Medal Maker Should Get Busy.

There are all sorts of heroes, but the man who thinks quickly and acts immediately is the chief of them all. Such a man is Policeman White, who tramps a beat in Brooklyn. This morning he saw John Dason, a carpenter, fall from a third story on which he had been working. The quick-witted policeman rushed forward, opened his arms and caught the falling man. Of course he was crushed to the ground, and equally, of course, he received considerable injury. But he undoubtedly saved the life of Dawson, who escaped with only a slight scalp wound instead of a fractured skull which otherwise would have resulted from his fall. The policeman is in the hospital nursing a severe cut in his scalp and a badly dislocated arm, while Dawson was able to return to his work. But that is only a sample of the acts of the general run of New York policemen. They have a wonderful sense of duty to the public notwithstanding all that has been said about the things the department overlooks.

Great Grist from Albany's Mill.

From Albany comes all sorts of tales of what the legislators, or some of them, are trying to do to us here in New York. It is the general opinion in the city that the upstate member lays awake nights thinking up foolish ideas. Of course a lot of them miss fire, but we have the Raines law as an evidence that some of them go through. There is one upstater who has put a bill in pickle for the whole commonwealth. Assemblyman Carrier of Chenange county would like to see this on the statute books: "The publication, sale or offering for sale within this state of stories or novels containing narratives of adventure, lawlessness or bloodshed, the tendency of which is to incite the readers to disorderly acts or engender a spirit of lawlessness, is prohibited. Any persons publishing, selling or having in possession for sale within this state any such publication, shall be guilty of misdemeanor." To show that he, too, is a thoughtful person, the "gentleman from Monroe" comes along with a measure that provides that "feathers or plumage, commonly known as aigrettes, the feathers or plumage of any species of the heron family," shall not be exposed for sale in this state, no matter where they were obtained. Only the feathers of certain predatory birds and of game birds killed in the open season can be sold under the law. Certainly the women will find this another excuse for demanding a chance at the ballot box.

Oh, the Cruelty of This.

When the case of Braud and Leroyer vs. Gould comes to trial it may be necessary to hire the Metropolitan opera house or Madison Square garden to accommodate the crowds. The plaintiffs, fashionable dressmakers, seek to recover from Howard Gould $3,700 for dresses furnished his wife, Katherine Clemmons Gould. Mrs. Gould insists that the dresses do not fit, but the plaintiffs say they do, and that is the question that must be proved to the satisfaction of a jury of men. The attorneys for the plaintiffs declare that they will not submit mere hearsay testimony, but will demand that the wife of the defendant try on the gowns and appear in each one before the jury, then stand forth while the beauty of the handiwork and splendor of material are discussed by learned counsel and expert witnesses. Therefore, when the trial day comes in the supreme court, and the case was placed upon the calendar today so it won't be long—bargain sales will be deserted and pink teas forgotten—for this is an opportunity for curious women folk that will put even a society wedding over on the shady side of the street.

Russians Not Helpless.

We need not, therefore, take for granted that the Russian people are helpless because on Sunday in St. Petersburg some thousands of them were basely butchered. In Russia no more than elsewhere are human beings fated to see,
Truth forever on the scaffold,
Wrong forever on the throne.

The Quiet Observer.

By ERASMUS WILSON.

Tell me not in broken measures
Modern farming does not pay,
For a farm produces chickens.
And the hens—do they not lay?

Eggs are high and going higher,
And the price is soaring fast,
Every time we go to market
It is higher than the last.

Not a coop but it produces
Every day an egg or two.
So each farmer gains his millions
Even though his hens be few.

Every egg is very precious,
And the hens are held in awe,
When a hen begins to cackle
Then the farmer goes "Haw, haw."

In the broad and busy farmyard
Struts a rooster now and then,
But the shrewd, bewhiskered farmer
Only notices the hen.

Trust no rooster, how'er showy
Be the feathers in his tail.
Pay attention to the biddies,
And your wealth will never fail.

Lives of farmers all remind us
We may roll in wealth some day,
If we hustle to the market
With the eggs our pullets lay.
—Chicago Chronicle.

Does farming pay?

This is the question that is agitating the minds of many young fellows who are about ready to leave their country homes to branch out on their own hooks.

That some of these are not satisfied to become farmers and live and toil as many farmers do now, is very evident. This is particularly true of those who have had a taste of college life. College education and farming has not agreed well heretofore, and they never will until farming is conducted scientifically.

Notwithstanding the fact that the farmer is a bit slow in taking up with new fangled notions, he is buckling up to science more closely than ever before, and is sending his boys to agricultural colleges, and allowing them to work the old farm scientifically.

If scientific farming will bring more stuff out of the ground then the farmer is for it, but you must first convince him that it will do it.

* * * * *

That the farmer's mind is kindly turning to science is shown by the interest he is taking in farmers' institutes. Every country paper you pick up contains notices of institutes to come, or of institutes that have come off.

Farming in this section has given way largely to stock raising, chicken business and gardening. This state of affairs was brought about largely through the difficulty of getting efficient help. This, in turn, is mainly due to the great falling off in the number of boys bred and reared on the farm. In addition to this many of the boys thus bred and reared are sent to college, or go to cities where they can make more ready money than comes to them on the farm.

But with the introduction of scientific farming the inducements for boys to remain in the business are becoming stronger, so that with the passing of the old set of farmers the country will present a very different appearance.

With trolley cars traversing the country between towns and cities the farmer will no longer live 'steen miles from nowhere. And where the trolley does not run there will be rural post routes, so that the farmer's family will have his daily papers and be in easy call of cities and towns.

Altogether the outlook for the farmer, and the farmers' boys and girls is becoming brighter and brighter. Don't you think so?

* * * * *

How are you on proverbs?

Maybe you are weary of wrestling with them. If so, here is a conundrum in which you are more or less interested personally.

How do mosquitoes bite?

We all know they bite like—well, they bite good and hard and often.

But that isn't to the point at issue. The scientific world is more or less wrought up concerning the exact manner in which their familiar insect gets in its work, or rather how it gets its working tool in.

Prof. John B. Smith of Rutgers college writes to Science on a statement by Prof. Washburn in that periodical questioning the accuracy of a figure of anopheles in the act of biting. The figure in question was shown in the mosquito exhibit at the St. Louis exposition, and was an accurate copy of a plate in the work of Nuttall and Shipley on anopheles, its structure and habits.

Prof. Smith read Prof. Washburn's protest, and tried to recall his own experience with anopheles, particularly at Cape May, where anopheles crucians was plentiful in 1901. He questioned also the field and office force, but they were equally uncertain in the matter. All had been bitten and were able to recall specific occasions when they watched the insect bite, yet none would say positively just what the biting position of the insect was.

Being somewhat astounded by these evidences of ignorance concerning a matter of such universal interest, Prof. Smith at once wrote to some of the more noted anopheleph-ists, and was only the more astounded to find that no two of them agreed as to how the 'skeeter does its miserable work.

Henry L. Viereck, who spent the entire summer at Cape May, could not state exactly, but was quite certain that the disposition of the legs of anopheles in the act of biting is with the head and beak nearly in a straight line and at an angle somewhat greater than 60 degrees to the surface.

Others written to had different impressions, and one had a positive recollection that the head was bent downward, and that the hind legs curved upward. Prof. Smith says in conclusion:

"I wish it distinctly understood that this is not a contribution to knowledge. It is an illustration of how many men may make observations in certain lines and absolutely ignore the most obvious points. It is also intended as a suggestion to those who may have made and recorded direct observation on this point, to publish their experiences."

Mr. Quiet Observer:—In your article of Monday you give the poem, "Not Understood," credited to J. W. Holt, in Louisiana Sun.

It is evident to me, a clodhopper, that J. W. Holt wrote the poem from memory and he has a very poor memory at that, having mutilated the first verse and omitted the fifth entirely.

The author of this poem is Tom Bracken of Dunedin, New Zealand, which poem you will find on page 98 of small copy that I send you with this. WILLIAM J. TURPIN.
Oakdale, Pa.

In order that our readers may have the correct version of the poem the first verse is given as it appears in the book; also, the fifth, which is omitted in the Holt version:

Not understood. We move along asunder,
Our paths grow wider as the seasons creep
Along the years; we marvel and we wonder
Why life is life! and then we fall asleep.
Not understood.

* * * * * *

Not understood. How trifles often change us!
The thoughtless sentence or the fancied slight
Destroy long years of friendship and estrange us.
And on our souls there falls a freezing blight:
Not understood.

* * * * *

All of this goes to show that it isn't safe to "crit" poetry, even though it comes from far-off New Zealand, which is about as far off as anywhere on the face of the earth.

The world is becoming so cosmopolitan that ere long one may hardly hope to find a place anywhere in which some one will not know him. And then where shall a fellow go to have a hot old time without fear of being recognized and have the news of his doings beat him home?

When that time comes all mankind will be compelled to accept and to observe the old adage: "Honesty is the best policy."

Your home town or community is just as safe a place in which to be bad as any other.

San Domingo's Plight

By L. W. STRAYER.

[By Private Wire to The Gazette.]

WASHINGTON, Jan. 24.—The senate spent some time today discussing a resolution introduced by Senator Bacon of Georgia calling upon the president to inform the senate whether there is any truth in the newspaper reports that this government had entered into an agreement with the Dominican republic to administer its customs receipts and clip it out of the financial hole into which that little West Indian republic has gotten itself. After tossing on the question for a time, the resolution was sent to the committee on foreign relations. There was some objection to the form in which it was introduced, as the preamble consisted of the article published in the Associated Press dispatches reciting the recent signing of a protocol by Minister Dawson and the Dominican authorities. It is possible the committee will knock off the objectionable preamble and report the resolution favorably, as there seems to be no objection to calling upon the president for a statement of the agreement which has been entered into between the two countries. This arrangement contemplates the representatives of the United States taking charge of the customs houses of Santo Domingo on February 1 and running the business of the country so far as the receipts and expenditures are concerned. We are to pay over 45 per cent of the money we take in at the ports, which will be used for paying the running expenses of the government. The remaining 55 per cent will be used to pay the debts of the republic, of which there is a large and variegated collection.

Beginning of the Trouble.

While this trusteeship is in operation we agree to guarantee the territorial integrity of the Dominican republic, but we do not in any way make ourselves responsible for the debts of the country. The fact that we act as paymaster need not be construed to mean we guarantee all creditors will be paid.

The trouble with the Dominican republic is it has never been able to get its breath between revolutions and wars. Ever since Christopher Columbus set foot on the island in 1492 there has been something doing in Santo Domingo. The result is the country has become so involved in debt that it is on the verge of bankruptcy. One administration has made settlements with claimants and has proceeded to make payments in accordance with such arrangement, when it has been succeeded by another administration that has repudiated all previous settlements, and the result is readily seen—loss of credit, loss of civic pride among the citizens and loss of confidence among the nations of the world. Dominican promises to pay became worthless in financial circles and clearly something must be done. The creditors of the republic were scattered among many European nations and these powers were ready to step in and force payment, but our Monroe doctrine forbade them from doing so. This doctrine has come to be one of our most precious principles and it does not permit any foreign power to use force on this side of the Atlantic, viewing all such demonstrations as contrary to the interests of the United States.

Uncle Sam Appealed To.

The doctrine as originally laid down by President Monroe contemplated only the acquisition of territory on the western hemisphere as opposed to our interests, but we have in later years construed any demonstration of a foreign power as the first step in the acquisition of territory and have objected to the landing of an armed force for any purpose. Knowing our deep seated objection to any other nation taking the initiative in the matter, several of the powers called the attention of the state department to the fact that it was clearly our duty in the premises to take charge of the Dominican republic and make her pay her debts. This reasoning was logical and consistent. We would not consent to any other nation taking this action, so it was manifestly our place to do it. And that is why American representatives are to take charge of the Dominican finances on February 1 and see to it that the just claims against that country are paid. Incidentally we will also see to it that the republic is not bulldozed as she has been in the past when exorbitant claims have been filed against her and collected by threat. And, too, our interference will mean much for the stability of the government, although we do not guarantee this in our agreement. However, the presence of American warships at Dominican ports will be a very discouraging sight to prospective revolutionists and the country will likely have a breathing spell.

Island a Rich One.

The republic of Santo Domingo is on the island of that name down near Porto Rico, the eastern end of the island being occupied by this nation and the western end by the republic of Haiti. The whole island has an area of 28,249 square miles, of which 18,045 are comprised in the republic of Santo Domingo and 10,204 belong to Haiti. The Dominican republic has a population of about 700,000 people, and it produces sugar, cocoa, coffee, tobacco and fruits in such large quantities and is so rich in minerals that it has attracted capital from the United States and Europe, which promises to develop the country and make it very wealthy. Gold was being mined there when Columbus arrived on the scene and it is claimed by some historians that soon after the discovery of the island the gold mines producing $400,000 a year. Despite the wealth that has existed there since before the white man discovered the island, its resources have remained undeveloped.

Peculiar interest attaches to the republic of Santo Domingo for the reason that within its limits was established the first civilized settlement in the new world, and because its territory is closely associated with the career of Christopher Columbus. The first landing of Columbus on that island was made on December 6, 1492, on the coast of what is now a part of the republic of Haiti, a few miles west of the Dominican boundary, and here he lost his flagship, the Santa Maria, with whose timbers he constructed a stockade called La Navidad. Leaving a garrison of 39 men he returned to Spain.

America's First Settlement.

The garrison was slain by Indians during his absence and when he returned in 1493 with a large number of colonists he built a town to the eastward of the ill-fated settlement, within the present limits of the republic of Santo Domingo. This town, called Isabella, was the first settlement by white men in America. The cathedral of the city of Santo Domingo and the cathedral of Havana are rival claimants for the honor of containing the tomb of Columbus, but many historians believe that the former is the correct claim. In fact, if you have sufficient influence you will be permitted to handle the casket at the Santo Domingo cathedral that is supposed to contain all that is mortal of the great discoverer. This casket is carefully guarded by the people and the government as well as by the church authorities, all of whom are sensible of the great honor that attaches to this claim.

On February 24, 1902, W. F. Powell, the United States minister at Santo Domingo, sends the following report to the state department:

"Sir—I have the honor to state to the department the arrival of Gen. Marino Gomez, Cuban general, in this city. The government is extending to him its hospitality as a mark of respect. As a testimonial of their regard, they have allowed him to view one of their sacred treasures, by exposing to him the casket containing the bones of Christopher Columbus and permitting him to handle the same.

The Remains of Columbus.

"For further information of the department I would say that these relics are enclosed in a casket made of composite metal, the box being 18 inches by 30 inches about 12 inches deep. There are numbers of bones in the box. It also contains the ball that was said to be imbedded in the leg of Columbus, received in an engagement, and never extracted. They claim from this evidence presented that the present relics are the mortal remains of the early discoverer and not those that were removed from Havana a few years ago; one of these relics your representative had the pleasure of holding for a few moments.

"This metal box is enclosed in another having glass sides and the two in a strong steel casket, protected by doors of the same metal, the whole resting, as I have stated, under a handsome marble monument inside of the main entrance of the cathedral which bears his name. I am informed that this was the fifth time that these relics have been exposed to public view. After a short time, to allow the general public to see them, they were returned to their resting place."

CLARK ON WATCH FOR DEMOCRATS

Unterrified of Three Wards Were Late in Filing Their Nomination Certificates.

BRAND SCENTS BIG SCHEME

The last chance for filing nomination certificates by political parties expired yesterday, and while the Republican nominations in all the wards were filed before the end of the business day, the Democrats would have had an incomplete ticket had not County Commissioner James A. Clark remained in his office until after 10:30 o'clock last night to receive belated certificates.

The Democrats of the First ward, Allegheny, came over at 9 o'clock with their certificate, and Commissioner Clark after glancing over it called attention to some irregularities, so that the papers had to be taken over to Allegheny, corrected and then returned. The Democrats of the Seventh ward, Pittsburgh, came in an hour later, and at 10:30 o'clock the Thirty-second ward Democrats brought their certificates in.

In speaking of the situation yesterday Max G. Leslie, chairman of the Republican city committee, said: "Our ward tickets are now completed, and we are starting in on a campaign that will result in a Republican victory all over the city. Prof. McLean, the Republican candidate for controller, is growing in strength with the people as they become acquainted with him. He is a man who keeps his word and he will make no promises which he will not carry out."

Spell Binders to Be Heard.

Mr. Leslie said that the real campaign of public speaking would open next week, and that A. C. Gumbert, chairman of the bureau of speakers and meetings, had found many prominent men desirous of making speeches at Republican meetings. Mr. Leslie thinks that the Republicans have every cause to be satisfied with the present situation, "because of the reports of clashes and quarrels in the opposition camp and the utter failure of the city administration to adjust the appropriation ordinances on a basis satisfactory to the people."

Councilman William Brand has been observing the altercation between Controller Larkin and the administration concerning the appropriation of $308,000 to meet the interest and sinking fund charges for the proposed filtration bond issue, and thinks that Larkin's friends and intimate associates realize that Larkin lost public confidence when he accepted the Citizens party's indorsement, and Brand says, they have advised the controller, whose attacks upon the administration have ceased for some time, to again fall out with Mayor Hays and Director Bigelow. Mr. Brand continued:

Larkin and his Citizens associates are to part company on the question of leaving this appropriation in the ordinance. When Director Bigelow refuses to allow this appropriation to be eliminated Larkin, according to the program arranged, is to refuse to have anything further to do with the appropriation bills and to announce that he will not be responsible for them. The rupture with Hays and Bigelow is to be advertised in Larkin's best style for the purpose of convincing the public that it is real. Then Larkin is to endeavor to recover some of his lost standing by refusing longer to affiliate with the Citizens officials. By this means he hopes to win back to his support the many independent voters who, disgusted with his association with Hays and Bigelow and his acceptance of the nomination of the Citizens party, have deserted him.

Orphans Got a Case of Horrors.

The Orphans were horrified yesterday when they learned that Detective Louis Leff and Louis Aipern, the Citizens candidate for alderman in the Seventh ward, aided by Isaac Solomon and Louis Kankensky, had filed affidavits in court affecting the right to the Orphans party name in the Seventh ward. Leff is an administration worker, representing men and principles entirely opposite to those of the Orphans.

Dr. George W. McNeil clucked with dismay when informed of Leff's scheme. "I was afraid of that sort of thing," he said, "and therefore I advised the central committee that we ought to put up a ticket in every ward in the city."

The Prohibitionists added to the mixed-up condition of affairs in the Twenty-first ward yesterday by nominating candidates, none of whom is one any of the other tickets, so that the Prohibitionists will be the only party running a straight ticket. The nominees are School directors, Homewood district, W. H. Daughenbaugh and Cowleson; Lincoln district, D. C. Mobley and H. M. Lamont; assessor, John Johnson, and constable, P. T. Gamble.

The Citizens of the Thirty-ninth ward, formerly Elliott borough, yesterday completed their ticket, as follows: Select council, Thomas J. Hawkins; common council, G. W. Gray and J. H. Bryant; assessor, George B. Lang, and constable, J. S. Van Ness.

John F. Ennis, the city gauger, aroused the apprehension of the administration recently by a remark made in an altercation with Select Councilman William McKelvey. Ennis remarked that Larkin had lost 10,000 votes by accepting the indorsement of the Citizens party. Mayor Hays is said to have sent for Ennis and secured his consent not to make any more statements of that nature.

Independent Republicans of the Eleventh ward, Allegheny, met last night in Schwerd's hall, Woods Run. August Panier acted as chairman and James Penwell as secretary. J. C. Oliver, the Republican nominee for select council, was indorsed, and John R. Henricks, Richard Millard and W. J. Wagner were named for common council. The Republican candidates for school board, assessor and nominees were indorsed, and John Merriman, who was defeated at the Republican primaries, was named for constable.

The full ticket of the Seventh ward Citizens, decided upon last night, is as follows: Alderman, Louis Aipern; school director, Charles Brinkerman; constable, James E. Glenn, and assessor, James Sassano.

The Republicans of the Twenty-third ward will have a meeting in the Hazelwood school tomorrow evening. F. C. Belshauer and others will speak.

A suggestion meeting of the Democrats and Citizens of Sharpsburg will be held tonight in the town hall. A full borough ticket will be put in the field. The Republicans will hold their suggestion meeting next Monday night.

WYMAN LOSES DEMOCRATS.

Republican Tickets in First and Fifth Wards, Allegheny, Indorsed by Opposition Party.

Another reverse met the Allegheny administration last night in its efforts to make a deal with the Democrats of the First ward. The ward committee met and indorsed the entire Republican ticket. Matthew Steel presided. Steel got into trouble last week with the district attorney's office and was arrested on the charge of running a gambling house.

Mayor Wyman made strenuous efforts to bring about fusion between the Democrats and the Wyman ticket in the First but failed. Another unusual feature of the situation in the First is that John Fletcher, Republican candidate for school director, is a brother-in-law of Mayor Wyman. Their political beliefs, however, have been widely different since shortly after Wyman took the oath of office.

The Republican-Democratic ticket in the First follows: Common council, Robert J. Bell, Andrew A. Artz; school directors, Joseph Barker, John Fletcher; alderman, George England; constable, Michael Foley.

The Fifth ward Democrats also indorsed that ward's Republican ticket. The Fifth ward ticket follows: Select council, Thomas McBride; common council, Thomas Monry, John Orr, Dr. F. H. Fredericks; school directors, J. R. Reed, John Ommert, William Pennington, Kate Cassat MacKnight.

FRANKLIN, Jan. 24.—(Special.)—The five indictments against County Commissioners John W. Irwin, John Lamberton and Charles W. Shaner, charging the violation of a special act relative to the awarding of contracts for bridges, were held over by Judge Criswell today. Counsel for the defendants asked that they be quashed, because the contracts related to piers for bridges and not to bridges. The judge said he would permit the district attorney to return the indictments to the April grand jury unless the defense could show a valid reason against such action. The matter will be argued on February 27.

BEAVER VALLEY BOROUGHS MAY BE CONSOLIDATED

Greater Pittsburgh Bill May Be Amended to Allow Incorporating of "Beaver City."

[SPECIAL TELEGRAM TO THE GAZETTE.]

ROCHESTER, PA., Jan. 24.—A movement has been started here looking to the consolidation of all the Beaver Valley boroughs and portion of several adjacent townships into one city, to be known as Beaver city. The borough councils, business men's associations and other organizations will be asked to co-operate. Mass meetings will be held commencing this week, at which the plan will be outlined by Attorney James H. McCreery of Beaver.

There is no act at the present time by which the city as planned can be formed, but the Greater Pittsburgh bill may be so amended as to enable incorporations of boroughs and townships into cities. The new city would be of the third class and have a population of 50,000. It would include Rochester, Freedom, Monaca, Bridgewater, Beaver, New Brighton, Beaver Falls and a portion of several adjacent townships. Should the plan be carried out each borough or township would be required to pay its own outstanding indebtedness up to the time of the consolidation.

FORAKER WILL CANVASS THE OHIO SITUATION

Washington Opinon Is, However, That Anti-Herrick Campaign Has Petered Out.

WASHINGTON, Jan. 24.—Next week there will be a round-up out in Ohio of the forces that are opposing Gov. Herrick for renomination and then it will be determined whether the fight will be taken into the convention. Senator Foraker, who has been shying bricks at the governor through the newspapers, but remaining under cover, has been repeatedly urged by the anti-Herrick people to come out to Ohio and talk it over with them.

They have told him that it was useless to hand out interviews from Washington while the other fellows were setting up delegates and they have pointed out that if a fight is to be made, something must be done at once. Finally Senator Foraker, who has an engagement to argue a case before the supreme court at Columbus on February 1, has consented to meet his friends at that time and discuss the situation. This is construed as an invitation for all the leaders who do not want Gov. Herrick to have a second term, to gather at the state capital and meet the senator.

If the opposition makes a good showing then, the campaign against Herrick may be continued, otherwise the fight will likely be dropped. The opinion here is that it has fizzled out already and that the announcement of George B. Cox some days ago in favor of Herrick settled the matter. L. W. STRAYER.

SNOW KING CREPT IN UNDER BLACK CLOUDS

Cold Wave Coming Eastward and Zero Weather Is Looked for Tonight.

Following on the heels of the heavy snow storm of yesterday is a cold wave, which will be accompanied by high winds, and is scheduled to arrive in Western Pennsylvania today. The local weather man late yesterday afternoon sent out warnings to local business interests that a fall of 20 degrees or more would occur before midnight tonight. The usual preparations for protecting perishable goods from frost were made.

In the Dakotas, Minnesota and other states in that region the temperature was last night reported from zero down to 18 degrees below. Bismarck, S. D., was the coldest place in the United States at 8 p. m. The mercury has been falling gradually throughout the Ohio valley and it is expected that by tonight zero temperature will be felt in many parts of the valley.

The heavy part of the storm reached Pittsburgh at 3 p. m. and was preceded by heavy black clouds. For a short time the entire section was nearly as dark as night and in stores, offices and residences lights were necessary. A strong wind soon cleared the atmosphere. During the period of darkness a heavy snowstorm began and continued for several hours. The snowfall measured over 1 inch. About 10 o'clock last night there was another heavy snowstorm.

Superintendent Nicewsaner of the Pittsburgh bureau of highways and sewers had the white wings and wagons out early yesterday morning, clearing the snow away. The superintendent over a week ago predicted a heavy snowfall for Pittsburgh for the first days of this week and had prepared to do battle with the snow.

DELEGATION TO WORK IN UNISON

Allegheny Legislative Members Plan Harmony Caucus for County's Good.

MANY BILLS IN THE HOPPER

THE PITTSBURGH GAZETTE BUREAU,
HARRISBURG, PA., Jan. 24.

Allegheny county's delegation will caucus tomorrow. In particular, it is stated, the purpose of the meeting is to establish an esprit de corps, and an agreement to work as an unit in support of such measures as directly favorably affect the constituents of the delegation, and others of a general character which appeal to the majority of the members.

As is always the case with large delegations, especially so when they are largely composed of new members, there has been some friction and misunderstanding in the Allegheny county delegation. It has not been of a serious nature, and it is believed that a heart-to-heart talk will obviate such a contingency. Senator John Crawford, as the dean of the corps, is favored as chairman of the meeting. The proposed Greater Pittsburgh legislation will be discussed, and while it is claimed there are seven members opposed to the tentative bills suggested by the chamber of commerce, inquiry will be made to ascertain if there is not a middle ground upon which harmonious action may be secured. Attention will also be given those appropriation bills in which the delegation is interested. In the matter of a Greater Pittsburgh the suggestion has been thrown out that such a bill, if passed, should not become operative until 1910, thus giving the incoming administration another full term. This thought, however, will hardly prevail. If there is to be a merger enacted, it, to be effective, must be unequivocal in character. The territory must first be annexed; explanations, if needed, must be made later. State leaders, I am told, have arrived at this conclusion. What action they will take remains to be seen.

Hospitals Held to Account.

Chairman Lee Plummer of the house appropriation committee, has asked the auditor general and the state treasurer for a statement giving the amount available for appropriations for the next two years. He will pare to the line of safety, giving as generously as circumstances permit. Hospitals which have not in the past maintained a fair number of beds for free patients, will be asked to explain and to give proper guarantee for the future. If they do not they will not be given the same consideration as they have had in the past. This is official.

All institutions which have been receiving state aid will receive a printed formula showing what information the committee will require before their applications are acted upon. Chairman Plummer and Speaker Walton are now working upon this schedule. Among other questions asked will be:

Estimated population of the territory dependent upon said institution, also distance to nearest place of similar character.

Number of free patients treated during the years 1902, 1903 and 1904, and average per year.

Average per capita cost per diem of free patients.

Annual income of institution other than state appropriations.

Amount of state appropriation in 1901 and 1903.

Amount of deficiency, if any, in 1902, 1903 and 1904.

There is a belief that all large hospitals should maintain not less than 10 beds for free patients.

More Appropriation Bills.

Appropriation bills introduced today were:

Mr. Waite—Pennsylvania Reform school at Morganza, $117,508 05; salaries, $72,000; insurance, $4,358 05; repairs, $6,000; steam heating, $1,500; plumbing, $7,500; equipment for the industrial school, $10,000; fire hydrants, $720; water supply, $1,200; boiler, $1,000; electric plant, $1,200; library, $300; drilling wells, $1,000.

Monongahela Memorial hospital, $20,000; maintenance, $1,500; laundry, $3,000; equipment of nurses' home, $1,500; grading, $500.

Beaver Valley General hospital, $27,000; maintenance, $12,000; equipment of new buildings, $10,000; furnishings, $6,000.

St. Josephs of Pittsburgh, $75,000; maintenance, $25,000; building extension, $50,000.

Charity hospital of Pittsburgh, $100,000; half for maintenance and half for the erection of new buildings.

Rosalia Foundling and Maternity hospital, $50,000; $15,000 for maintenance and balance for improvements.

Memorial hospital of Johnstown, $45,000; maintenance, $15,000; balance for additional buildings.

A bill was introduced amending the law governing the salaries of county officials. The only changes made were those in the positions of county jailor and jail physician who under the proposed act will receive $5,000 and $2,400 respectively.

Mr. Francies introduced a bill making it a misdemeanor for anyone found in possession of tools or instruments commonly known as burglars' tools. The maximum penalty on conviction is three years in solitary confinement.

Mr. Maust, of Cumberland, presented a bill providing the appropriation of $125,000 for a "parental school," for "habitual truants, habitual school offenders and vagrant children," who may be committed to such institution by the courts of any county in the commonwealth.

Changes in Death Penalty Law.

Mr. Trowell of Lycoming, offered a bill which provides that the bodies of people dying in public institutions not claimed by "kindred," or persons "related by marriage," may be consigned to the dissecting table. An exception is made in such cases where 10 taxpayers make proper petition claiming the body, they being resident of the poor district in which the deceased had residence.

Mr. Trowell also presented a bill providing that persons convicted of capital crimes must be executed within from four to eight weeks after sentence of death is pronounced, with the utmost secrecy as to time, and with a limited number of witnesses. It provides the governor shall issue a death warrant 10 days after receiving notice of the conviction. He shall appoint a week in which sentence shall be executed, and it is left to the discretion of the warden of one of the penitentiaries, where all executions shall take place, to fix the day and the hour in the week designated in the warrant when an execution shall take place.

Within 10 days after the issuing of the warrant the sheriff must deliver the defendant to the warden of the state prison, where he shall be kept in solitary confinement until the execution of the death penalty. The warden is required to invite to witness the execution a justice of the supreme court, a judge of the superior court, the district attorney and the sheriff of the county where the conviction was had, physicians and 12 reputable citizens and such ministers of the gospel not exceeding two, as the prisoner may designate. The warden shall also designate six assistants or deputy sheriffs to attend the execution. No other person shall be allowed to attend executions.

Proposes Life Insurance Features.

Bodies of executed criminals not claimed by relatives shall be interred in the prison graveyard with a sufficient quantity of quicklime to consume the body. No religious ceremony is allowed to be held over the remains of any executed person except within the walls of a prison, and then only in the presence of the immediate family and relatives. The act is to take effect after June 13, 1905.

A bill introduced by Senator Grim of Bucks county, would permit building and loan associations to insure the lives of their members. It provides that the board of directors may arrange with any life insurance company which has been licensed by the commissioner of insurance to transact business in this commonwealth, to insure the lives of stockholders, and may increase the amount of regular dues on shares in proportion to the age of the insured stockholder, to cover the cost of the insurance.

Any stockholder may take advantage of this by signing a written document, giving his consent to the insurance project. At the death of a stockholder his heirs shall be entitled to the full amount of the insurance in addition to the withdrawal value of the shares held by him, unless such shares are pledged to the corporation for a loan or advance, in which event the corporation is entitled to enforce its claim for the amount due.

The building society or an officer or other person authorized by the board of directors, may act as agent for procuring the insurance, and the insurance may be made payable to the building association, or as the by-laws shall determine. Building associations may continue in force all the policies on lives of their stockholders applied for prior to the passage of this act, and such contracts shall be valid in law. The maximum amount at which shares may be issued is reduced from $500 to $200 and the amount of dues to be paid is not to exceed 50 cents, if paid weekly, or $2 if paid monthly, for each share.

According to a bill introduced by Representative Morse of Bradford, judges of all the common pleas and orphans courts of Pennsylvania shall be required to render judgment, dispose of and file their opinions within six months from the time any case, petition, rule, motion or other matter in law or an equity shall have been tried, heard, argued and finally submitted to such judge, unless during such time such judge, by reason of sickness, shall have been incapacitated from attending to his duties. To enforce this provision it is specified that the state treasurer shall pay no judges' salaries until they shall have filed certificates with the treasurer and the auditor general to the effect that the requirement of this law has been complied with.

Francies Appeals for Whipping Post.

Senator Phillips of Lawrence today presented a bill said to be backed by the Druggists' Association of Pennsylvania, providing that all applicants for druggists' licenses in this state shall have been graduated from a recognized pharmaceutical college, in addition to having served four years in the practice of pharmacy as now provided.

In the judiciary general committee of the house, this afternoon, Mr. Francies explained the provisions of his bill providing a penalty for wife beaters. He made an eloquent address on the bill. No doubt it will be favorably reported.

Mr. McWhinney, in the committee on counties and townships, explained his bill giving townships of the first class the power to revert to the second class when there has been sufficient loss in population. This bill affects, among others, Mifflin township, which has lost the towns of Dravosburg, Homestead and Whittaker, and no longer cares to bear the salary expense of a first class township, with a population of the second class.

Veterans of the Fifty-fourth regiment, Pennsylvania volunteers, residing in Cambria and Somerset counties, have formed an association and will ask the legislature for $1,000 with which to erect a monument at Newmarket, W. Va., the scene of the battle in which they were participants.

Both senate and house after the morning session adjourned until tomorrow.

CHESTER D. POTTER.

MINE DISASTER RECALLED TODAY

Just a Year Ago, 177 Men Perished in Harwick Shaft at Cheswick.

OTHER MINING ACCIDENTS

One year ago today 177 miners perished in the Harwick mine at Cheswick. The disaster was the result of an explosion caused by a "blow-out" shot, according to the coroner's verdict. But one man escaped from the mine and Chief Engineer Selwyn M. Taylor lost his life in a rescuing party, making a total of 178 deaths.

The Harwick disaster was the third largest in the history of the world, and the largest in the history of the United States. The largest casualty list was in the explosion of the Anderlues mine in Belgium, March 11, 1892, when 201 miners were killed. The second largest was the explosion of the Lund Hill mine, England, February 19, 1857, when 189 men were killed.

After the Harwick disaster come the following in late history: Nainamo, Vancouver, May 4, 1877, 170 killed; Dour, Belgium, November 13, 1888, 121 killed; Johnstown, Pa., July 11, 1902, 113 killed; Sydney, Australia, March 22, 1887, 87 killed; Berlin, Germany, August 19, 1895, 57 killed; Rhondda Valley, Wales, February 18, 1857, 39 killed; Mons, Belgium, March 5, 1885, 87 killed; Braznell mine, Brownsville, Pa., December 24, 1880, 29 killed; Hill Farm mine, Dunbar, Pa., June 16, 1890, 31 killed, and on November 21, 1903, 12 men were killed in another explosion at the same mine.

Former Coroner Jesse M. McGeary made a careful investigation of the Harwick disaster, and the jury determined the foremen and fire bosses of the mine were negligent in their work and did not comply with the mining laws of the state. The mine inspectors in their report to the coroner said the officials of the mine were careless, and Coroner McGeary in his charge to the jury confirmed the finding of the mine inspectors and censured Inspector F. W. Cunningham, who examined the mine, and Wilfred Sowden, superintendent of the mine, for being careless in their investigation and management of the mine. The coroner's jury held Inspector Cunningham and Supt. Sowden to await the action of the grand jury on a charge of murder and recommended that the legislature enact laws that are more specific in governing mines.

The grand jury has never acted on the cases of Inspector Cunningham and Supt. Sowden.

JOSEPH TRUMP NOT DEAD.

He Says So Himself, Notwithstanding the Publication of His Obituary— Declines a Soldier's Funeral.

Joseph H. Trump, aged 67, of 822 Talbot avenue, Braddock, a veteran of the civil war, was surprised yesterday when he read his obituary in some of the Pittsburgh and Braddock morning and evening newspapers.

Later in the day, when relatives and friends came from Ohio, neighboring Pennsylvania counties, and from the immediate neighborhood, to mourn at his bier, he rather appreciated their expression of homage, but when some of the comrades of Maj. A. M. Harper Post 181, G. A. R., of which he is a charter member, called to make arrangements for a soldier's burial, Trump took it upon himself to countermand a superior officer's orders and insisted on a full call.

Trump has been ill for some time and had recently been considered in critical condition. Monday a rumor was circulated that he had died, and the news was reported to a number of newspapers. Not only was the allegation denied by Trump last night, but it was reported that he was feeling better than he had at any time since his recent illness and was well on the road to recovery.

Death of Mrs. William L. Anderson.

Boas of the East End and was born in Pittsburgh, where she lived until four years ago, when she went to Wilkinsburg. BUT GROYL IS IN JAIL.

Man Who Cannot Write Is Charged With Forgery.

Although he cannot write, Frank Groyl, an Italian of Mt. Washington, is charged with forgery and is in jail. Groyle worked for the Pittsburgh Railways Company as a laborer for four days at $1.50 a day, and received an order on the company for $8. When the order was presented to the office for payment it was for $26. The figure 2 was badly executed and looks as if it was first a 1. Groyl cannot write and the order bore his mark. It is thought some one else committed the forgery and that Groyl knows who did it. Groyl will be given a hearing before Alderman Toole at 10 a. m. Monday.

A Full Dollar's Worth Free

I searched the whole earth for a specific for Rheumatism—something that I or any physician could feel safe in prescribing—something that we could count on not only occasionally, but always. For the ravages of Rheumatism are everywhere and genuine relief is rare.

After twenty years of search and experiment I learned of the expensive German chemical I now employ. And I knew then that my search and my efforts were well rewarded. For this chemical gave me the basis of a remedy which in the cure of Rheumatism is practically certain, as experience has proved.

I don't mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again—that is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of the pain and swelling—the end of the suffering—the end of Rheumatism.

Any Rheumatic sufferer who has not tried my remedy may have a full dollar's worth free. I ask no deposit, no reference, no security. There is nothing to pay, either now or later. To those who write promptly I will send my authoritative book on Rheumatism. Write today. Address Dr. Shoop, Box 5568, Racine, Wis.

THINK HOCH WAS PUPIL OF HOLMES

Alleged Chicago Bluebeard Accused of Poisoning Six of His Thirteen Wives.

NEW EVIDENCE COMES OUT

[By Associated Press to The Gazette.]

CHICAGO, Jan. 24.—Information of more alleged victims of the supposed bluebeard, Joahn Hoch, has been given the police by John Frick, an employe of the Nickle Plate railroad. Frick says his sister, Mrs. Mary Schultz, married Hoch, who then called himself Albert Muschburg, at Argos, Ind., in 1900. Mrs. Schultz had a child named Nettie, then five years old.

"Shortly after they arrived in Chicago letters ceased coming to me," said Frick, "and I am under the belief that my sister and her little girl were done away with. My sister had about $1,500 at the time of the marriage."

Mrs. J. H. Schwartzman of Milwaukee telegraphed the police she would arrive here today to try to identify Hoch as the man who married her sister in 1899. The woman died shortly after, leaving $1,800 to her husband.

Relatives of six of the 13 wives credited to Hoch have expressed a belief to Police Inspector Shippy that the six women died from poison. The list of dead and missing is as follows:

Mrs. Marie Welker Hoch, died January 11, 1905.

Mrs. Mary Steinbecker, died 1894.

Mrs. Mary Becker, St. Louis, died 1902.

Mrs. Mary Schultz, Argus, Ind., died 1900, child also disappeared.

Mrs. Lena Hoch, Milwaukee.

Mrs. Sophia Hoch, Milwaukee.

Acting on the theory that Hoch is the missing janitor of the notorious H. H. Holmes "castle," the police are using the same methods to trace Hoch as were used in seeking Holmes. The officers believe Hock to be a pupil of Holmes, and that he will use the same ruses that were employed by Holmes to escape arrest.

Police Inspector Shippy heard today that in April, 1898, when Hoch was on trial for an alleged attempt to swindle a furniture firm, a minister from Wheeling, W. Va., was in Chicago and recognized in Hoch a man whom he had married and whose wife had died under suspicious circumstances.

A furniture dealer in Milwaukee avenue informed the police tonight that he had furnished five different flats for Hoch, each time under a different name, and that he had a new wife for every flat.

The first flat furnished was in May, 1892, under the name of C. A. Mayer, the second in June, 1892, under the name of H. Irick; the third in 1894, the dealer does not recall the name used, but it was different from that used on any other occasion; the fourth was in 1894, under the name of Jacob Hoch. The wife this time was Mrs. Mary Steinbrecher. The fifth flat was furnished in 1898, under the name of Adolph Hoch. This time Hoch gave a mortgage on the goods and then sold them. For this he was sentenced to a year in the county jail.

The dealer told the police he knew the women installed in the first three flats died soon after marriage. He asked Hoch why he changed his name every time he married and Hoch replied he did not believe he could get married under the same name every time, as many women would object to marrying a man who had been so many times a widower.

HISTORY AND FUN AT ENGINEERS' BANQUET

Story of 25 Years' Existence With Good Fellowship on the Side to Mark Event.

Plans are already practically completed for every detail of the annual dinner of the Engineers' Society of Western Pennsylvania, to be held at the Hotel Schenley Saturday evening. The committee in charge, of which George T. Barnsley is chairman, will not allow any of the features to be known before the members assemble around the banquet tables, but enough has been learned to show that the affair will surpass any of the long series of successful dinners the organization has given.

This being the 25th anniversary of the founding of the society, the plans have been modeled somewhat to accord with that fact, and some serious elements have been introduced, but there remains much of fun and good fellowship on the side.

The souvenir menu is said to be the handsomest the engineers have ever prepared. The work has been done by artists of unusual ability.

The Structural section of the society held its annual meeting last evening. E. K. Morris was chosen chairman for the coming year; Robert A. Cummings, vice chairman; Thomas J. Wilkerson, secretary and T. D. Lynch and Charles Worthington directors. Mr. Morris read a paper on "The Cushion Floor System for Railroad Bridges." The floor is made by using granulated slag between the ties and the steel work. The result is to remove the shock of the impact of the train on the hard steel. The subject caused considerable discussion, as the idea is a new one.

MEXICAN VICTIM OF YAQUIS.

He and Two Servants Were Murdered in Vicinity Where Americans Were Slain from Ambush.

HOUSTON, TEX., Jan. 24.—A special from El Paso, Tex., says: Antonio Astarian, a member of a prominent Mexican family, with two servants, has been murdered by Yaqui Indians in the same vicinity where five Americans were slain last Thursday. The family of M. Donne, a ranchman, was robbed, but they were allowed to go with their lives.

LAFAYETTE, IND., Jan. 24.—Merrill A. Call of Toledo, who was one of the party of Americans slain in ambush by a band of Yaqui Indians in Mexico recently, was a member of the Purdue football squad of 1899 and for the two years following. He was one of the officers of his class and was graduated from Purdue in 1902.

GATES' FORMER PARTNER DIES IN RAILWAY STATION

CHICAGO, Jan. 24.—Charles Wesley Gary, cousin of Elbert H. Gary, chairman of the board of directors of the United States Steel Corporation, died suddenly today in the Chicago & Northwestern railway station at West Chicago, while waiting the arrival of a train with his wife. He was 60 years old. From 1872 to 1874 he was associated with John W. Gates in the hardware business.

PLANS TO TIE UP SURPLUS COTTON

They Are Discussed by First Inter-State Growers Convention in South.

WILL ORGANIZE THE FARMERS

[By Associated Press to The Gazette.]

NEW ORLEANS, Jan. 24.—The first southern interstate cotton convention opened here today with 1,135 delegates present, representing 13 cotton-growing states and territories, the largest and most representative cotton-growing body ever gathered together in the south.

By unanimous vote the convention agreed that the paramount business to be settled before any other business is transacted is contained in the following propositions:

First—We must tie up and take care of the surplus of this crop and remove it from the markets of the country until next fall, and hold the balance of the crop absolutely in our possession until prices advance to normal conditions.

Second—We must reduce the cotton acreage and use commercial fertilizers under cotton at least 25 per cent under that of 1904.

Third—We must arrange for a general system of bonded warehouses under local control of the people throughout the south.

Fourth—We must at once proceed to organize the producers of the south in every cotton growing county on a business basis to carry into operation a permanent system of relief and protection for the future.

The report of the committee on permanent organization provided for Harvie Jordan as president, and for a vice president from each state. It fixed the representation on the basis of one vote for every 100,000 bales of cotton raised during 1903-04, as follows:

Alabama, 10; Arkansas, 8; Florida, 1; Georgia, 14; Louisiana, 9; Mississippi, 14; North Carolina, 6; South Carolina, 9; Tennessee, 3; Texas, 26; Oklahoma, 2; Missouri, 1, and Indian territory, 3.

The following committees were provided for: Reduction of cotton acreage and use of commercial fertilizers, with one farmer, one banker and one merchant from each state; permanent organization of farmers, with three farmers, one merchant and one banker from each state; financing and holding balance of present crop until legitimate prices are secured, with one farmer, one merchant and one banker from each state.

BIDS ON FILTRATION TO BE ASKED NEXT WEEK

Bureau Working Day and Night to Get the Plans and Specifications Ready.

Director Bigelow will advertise next week for bids on the 10 contracts for filtration. For several weeks past the entire force of the filtration bureau has been working at night in the city hall on the plans and specifications and for the past week the bureau has been working long past midnight. Yesterday morning it was 3 o'clock when the bureau ceased its labors and it finished about the same hour this morning. The official printer is also working day and night and the proofs of the plans and specifications are hurried to the city hall as fast as prepared. This work is expected to be completed tonight and the plans and specifications are expected to be ready the first of the week.

It is Director Bigelow's intention to let the contracts at the earliest possible moment, and he is also counting upon an early issue of the $5,000,000 of additional bonds. The bonds cannot be issued, however, until a decision in the mandamus case against Controller Larkin, which was concluded yesterday, is handed down.

This decision is looked for soon and if it is against the administration a new ordinance will be immediately passed by councils, covering any legal defects found in the last ordinance. This would remove present objections raised by Controller Larkin.

Adjourn Without Making Nominations.

TITUSVILLE, Jan. 24.—(Special.)—All hope of agreeing on a candidate for mayor was abandoned this morning by the Republican convention and after electing a permanent chairman a final adjournment was taken. As the Elba faction still refused to vote for the remaining candidates until a mayor was nominated, the whole ticket was sacrificed. Nomination papers for mayor will now be taken out by both Jameson and Elba with the names of A. C. Harton for comptroller and Charles Levy for city treasurer.

THE JOYS AND ILLS OF WINTER.

Coughs, Colds, Croup, Pneumonia, Bronchitis, and La Grippe Are All Forms of Winter Catarrh and All Are Curable by Pe-ru-na.

Winter has its pleasures. The skating, sleighing and various other outdoor sports of winter, combined with its pure, bracing atmosphere, all tend toward producing a healthy condition of the body.

Yet, in spite of these pleasures, winter brings its ails. Most of them are in the nature of climatic diseases.

People are sometimes not as careful as they should be. They expose themselves unduly.

They are caught in cold, sleety rain. They enter the house with damp shoes and clothing and do not take the time or trouble to change to dry clothing.

They sit about the house and breathe the vitiated air of stuffy, unventilated rooms.

They do not take enough outdoor exercise and neglect hygienic precautions.

The amusements of the long evenings create a tendency to keep late hours and eat heavy meals before retiring.

All of these indiscretions create catarrhal diseases.

Coughs, colds, bronchitis, croup, pneumonia and la grippe predominate, though indigestion and stomach catarrh are almost as prevalent as in summer.

The only remedy ever devised by the medical profession to successfully counteract these ills and permanently cure catarrh, is Peruna.

It cures catarrh in every phase and stage. It is not a palliative, but a permanent cure.

It strikes at once the root of the catarrh by removing the cause of catarrh.

It soothes and heals all of the various mucous membranes of the body, whether of the head, throat, lungs or stomach.

Peruna, together with a reasonable amount of care as to one's health, is the only fortification necessary to keep off winter catarrh.

We give below only a few of the many commendatory expressions received by Dr. Hartman from people who have been cured of winter catarrh by Peruna.

When the Children Catch Cold.

"If my husband or any of the children catch cold, lose their appetite, or have indigestion, a few doses of Peruna never fail to effect a cure."—Mrs. Annie Jones, Glenwood Springs, Col.

Catarrh of Head and Throat.

"I have been giving my little daughter the Peruna regularly, and she is entirely cured of her catarrh of the head and throat."—Mrs. E. P. L. Geissler, 89 Milton St., Cleveland, Ohio.

A Severe Cold.

"Last fall I took a severe cold which settled all over me. I thought that I would try Peruna. In less than a week I began to improve and kept on so until I was again able to do my work."—Mrs. Clara Litterst, Scarfield, Ind.

Catarrh Became Chronic.

"I was suffering from catarrh of the head and eyes. I began using Peruna after this trouble was well seated, but found that it took hold of the trouble at once. I was a grateful woman at the end of six weeks, when I found that I was well."—Alice Campbell, Avalon, Santa Catalina Island, Cal.

Health Restored by Pe-ru-na.

"My health was excellent until about a year ago when I had a complete collapse from overdoing socially, not getting the proper rest and too many late suppers.

"I was advised by a friend to try Peruna. I kept using it for three months. At the end of that time my health was restored."—Nellie G. Loomis, 911 Campbell St., Kansas City, Mo.

Lawrence Stewart, a newspaper man, may manage the Washington (Pa.) independent team this season. Jim Brownlee, manager for the past two years, declares he is out of the game.

William Dranar, catcher, and Jimmy Corrigan, shortstop of the Fairbanks, have signed with the Circleville (O.) team, which is managed by "Kid" Reynolds of Allegheny, once a local prize fighter.

ONLY TWO FAVORITES FAILED TO MAKE GOOD

Poor Judgment by Jockey Murphy Cost Belle Indian the Second New Orleans Event.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW ORLEANS, Jan. 24.—With the exception of Show Down and Belle Indian, the favorites in today's races so far outclassed their company that the result in each event was, barring accidents, a foregone conclusion. Show Down was beaten by Fhatery, who opened up a gap at the start and won in a common gallop. Murphy took too many liberties with Belle Indian and waited too long before making his move, the result being that Frank Kenny lasted just long enough to beat him out a head at the end. Summaries:

First race, 3½ furlongs—Fhatory, 110, Crimmins, 7 to 1, won; Show Down, 107, J. Hennessy, 5 to 2, second; Grey Dal, 110, B. Phillips, 12 to 1, third. Time, :45 3-5.

Second race, 1 mile—Frank Kenny, 123, Nicol, 10 to 1, won; Belle Indian, 106, M. Murphy, 9 to 5, second; Lineal, 108, Baird, 7 to 2, third. Time, 1:48 4-5.

Third race, 6 furlongs—Rapid Water, 112, J. Martin, 5 to 1, won; Jake Daniels, 100, Nicol, 16 to 5, second; Maister, 100, McGee, 30 to 1, third. Time, 1:18.

Fourth race, 1 mile—Phil Finch, 110, Paul, 4 to 5, won; Forehand, 93, J. Dale, 7 to 1, second; Monaco Maid, 90, Aubechon, 7 to 2, third. Time, 1:43 1-5.

Fifth race, 1½ miles—Hymettus, 100, J. Hennessy, 7 to 10, won; Royal Army, 84, C. Morris, 20 to 1, second; Vivax, 101, Schilling, 5 to 1, third. Time, 2:46 4-5.

Sixth race, 1 mile—Coruscate, 100, Nicol, 3 to 4, won; Lieut. Rice, 90, Aubechon, 5 to 2, second; Darius, 85, M. Murphy, 20 to 1, third. Time, 1:46 4-5.

John Tener Won the Medal.

CHARLEROI, PA., Jan. 24.—(Special.)—A billiard tournament took place last night at the Elks club between J. K. Tener and John Monier. A gold medal had been offered by Kerfoot W. CORRIGAN NOW HAS CONTROL OF TRACKS

Secures Worth and It Looks as Though the New Turf Body Is a Sure Thing.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CHICAGO, Jan. 24.—How the "turf" war now stands: There is no war. Corrigan has put the so-called war out of commission by capturing two of Chicago's three race tracks for his new circuit. The American Jockey club will be formed in Hot Springs with thirteen tracks.

Turf followers are eagerly watching for the next move in the war that is raging between the almost defunct Western Jockey club and the "reclaimers," headed by Edward Corrigan. The move will be taken in Hot Springs when the horsemen who are in revolt against the turf trust gather and form the new circuit which is to be known as the American Jockey club.

When Ed. Corrigan left Chicago for Hot Springs it was with the agreement of Worth tucked away snugly in his pocket to stand pat with him and refuse all overtures of the trust.

Corrigan's capture of Worth is the greatest of his recent conquests. With Washington park out of the game through the action of the city administration, only one track is left to compete with Hawthorne and Worth, and that is Harlem, of which John Condon is the ruling official.

Corrigan declares that most of the leading horsemen are already pledged to the new organization—hence the loss of much wealth to the trust; and it looks as though it would be merely a loss of time, effort and wealth for the stewards of the Western Jockey club to keep up the strife after this week.

Nashville will be a member of the Corrigan circuit, is the latest announcement, and Tom McDowell will in all likelihood be elected president of the new turf organization.

Will Try the Jiu Jitsu.

A smoker and boxer for the benefit of Billy Verner, the old-time trainer and boxer, will be given tonight by the Hays Park Athletic club in Klein's hall. Whitaker and some of the best-known boxers of this end of the state will be present and have four-round bouts with opponents to be selected. Hayden Campbell, Jack McClelland of this city, Dick Given and Jack Parry of Homestead, the best boxers of the various athletic clubs of the city and vicinity and other attractions, including wrestling, bag punching, dumbbells and physical culture will be on the program. One of the features will be an exhibition bout between William Barber, the champion 105-pound wrestler of Pennsylvania, and James Dougherty, an examartine, who is an expert in the art of Japanese style of wrestling, Jiu Jitsu. Barber is skilled in catch-as-can style and the Japanese style is new to him.

LARKIN GETS HIS ANSWER TODAY

Produced Old Law, but Sub-Committee Waits for Bigelow to Return.

MANDAMUS CASE IS ARGUED

The issue between Controller Larkin and the city administration over the appropriation and tax levy bills will be settled today, it is announced, having been postponed from yesterday because of the absence from the city of Director Bigelow and the inability of Solicitor Rodgers to attend the secret meeting of the sub-committee on appropriations yesterday, owing to the hearing of the filtration mandamus case in court in which Mr. Rodgers is counsel for the city.

Mr. Rodgers has, however, promised to be present this afternoon, and he is expected to give an opinion as to the legality of keeping in the approbration bill the item of $366,666 for the payment of the sinking fund charges and interest on the proposed $5,000,000 filtration bond issue. The solicitor is expected to state that this can be legally done, and the sub-committee is expected to so report to the finance committee.

A call for a meeting of the finance committee on Friday will probably be issued today. Director Bigelow is expected to be present at the meeting today, and he will again oppose Controller Larkin's plan to strike the filtration item out of the appropriations.

Larkin Shows an Old Law.

The controller yesterday presented to the sub-committee a copy of the act of 1874, with amendment of 1891, which states that the levying of a tax for the sinking fund and interest on bonds shall be levied after the bonds are issued. At least, that is the construction the controller places upon the law. The sub-committee listened to the reading of the law yesterday, but the members made no comments, leaving the matter to the city solicitor. The members of the sub-committee, however, expressed themselves individually as opposed to the demand of the controller and declared they would so vote today.

The controller and Messrs. Zeuger, Gallagher, and Maslowski, who are members of the sub-committee, left the meeting about 4 o'clock yesterday afternoon, but Chairman Helmold and his assistant, Councilman Roenigk, remained in session until after 5 o'clock, going over the figures with the mayor and President Ward of common council.

Messrs. Helmold and Roenigk made a trip to the controller's office after the controller left the sub-committee to get more information. They were trying to ascertain if the tax levy could be kept down to 13½ mills by keeping in the appropriations the $366,666 for filtration.

May Raise the Millage.

The controller claimed this was impossible unless the estimated revenues were inflated. The members of the sub-committee said they are ready to approve a 13½ mill levy today, if necessary, to keep in the filtration item. It is not at all unlikely that a 13½ mill ordinance will be presented to councils.

The arguments of counsel on the demurrer filed to the return of Controller Larkin in the mandamus proceedings brought by Mayor Hays in the filtration bond case, were concluded yesterday morning and the court took a brief prepared by Attorney George W. Guthrie, who appeared for Mr. Larkin.

Attorney Guthrie contended, in addition to his argument of Monday, that inasmuch as the controller charged fraud in securing the passage of the filtration bond ordinance and that he expected to prove the charges, there was ample ground for the court to refuse the petition. He talked at length on the technical points of law involved and urged upon the court the necessity of great caution in spending so much money for so important an improvement. He denied the allegations of corruption were collateral matter which the controller could not raise in such a proceeding.

Controller Larkin said that in his estimate of revenues for the ensuing fiscal year he had reduced the delinquent taxes from $1,048,000 to $950,000, and water rents from $1,000,000 to $850,000.

W. J. Brennen, attorney for the central board of education, appeared before the sub-committee to make an argument for the appropriation of $205,000 asked for a fund to build a new high school. Mr. Brennen cited the law and various court decisions in support of his contention that the councils had no alternative but to appropriate what the central board demanded.

WASHINGTON, Jan. 24.—(Special)—Representative H. Kirke Porter and Mrs. Porter this evening entertained at dinner the Pennsylvania congressional delegation at their home in Lafayette square. Run on Meadville Bank.

MEADVILLE, Jan. 24.—A run was made today on the Crawford County Trust Company's bank, principally by small depositors. The bank had in its vaults Saturday night $7,156 and on call in other banks $141,388. The run is supposed to have been starter by a local depositor telling that he had drawn his money because of the suicide of an officer of the City Savings Fund and Trust Company of Lancaster, and that the two concerns belonged to the same persons. President Fuller and Cashier J. M. Dunbar said tonight that the bank is fully prepared to meet every demand.

Judge A. K. Kaul Dead.

PHILADELPHIA, Jan. 24.—Associate Judge Andrew Kane Kaul of Elk county, a millionaire and associate of State Senator J. K. P. Hall in the lumber business and the St. Mary's Oil Company, died here today. He had been suffering with Bright's disease and was brought here last November for treatment by specialists. Judge Kaul was 60 years old and prominent in the Democratic politics of his county.

JOHN DAVIDSON MAY BECOME SPEED RACER

Another large and appreciative crowd turned out to the garden last night to see Johnny Davidson, the world's famous fancy and acrobatic skater, in his marvelous exhibition. Davidson is seriously considering re-entering the racing field. He is a brother of Harley Davidson, the world's champion professional speed skater, who may be seen at Duquesne garden this winter in a series of races with Peaples, Sinnirud and other crack skaters. "I may enter the big races at Montreal, which are to be held during February," said Davidson yesterday. "Should I decide to again enter the racing events I will give up the stunt work and devote the time from my exhibition here to the date set in February to conditioning myself for the go with the big fellows."

This will be Davidson's last year out as a fancy skater. An exhibition will be given at the garden this evening by Davidson. His performance takes place at 9 o'clock.

SOCIETY

WALTER P. MAGEE of "Spring Bank," Forbes street, was host at a beautifully appointed dinner at the Pittsburgh golf club last evening. The guests of honor were Miss Carolyn Eugenia Heberton, a cousin of the host, and her fiance, Davenport Plumer of Germantown, whose marriage will take place tomorrow. The dumbbell-shaped table was placed in the ball room of the club house. In the center of the board and at each end were dainty baskets of yellow daisies, tied with tulle of the same color. Between these were large yellow tulle bows and maidenhair fern, a combination that was very effective. The place cards bore hand-painted Cupids and were retained by the guests as souvenirs of the occasion. Covers were laid for 32, the guests including Miss Heberton, Mr. Plumer, Miss Charlotte Lloyd of Muncie, Pa.; Miss Anne Audenreid, Miss Helen Gray, Gernard Lieper, William Stooke, Mr. and Mrs. Carl Ziegler, all of Germantown; Miss Helen Heberton, Miss Florence Murdoch, Miss Margaret Reed, Miss Ella Cassidy, Miss Margaret Biggs, Miss Katherine Cheney, Henry Patton of Philadelphia; Foster Symes of New York; Mr. and Mrs. Henry A. Plumer, Mr. and Mrs. Charles Phillips Hill, Mr. and Mrs. Arthur A. Hammerschlag, Mr. and Mrs. Christopher Magee, Jr., Mr. and Mrs. Bruce Millard and John D. McIlhenny. Henry Plumer gave a 1 o'clock breakfast at the Pittsburgh club yesterday in honor of the prospective bridegroom and his ushers, and Walter P. Magee, who was host last evening, entertained the men of the bridal party with luncheon at the Country club on Monday. Mr. and Mrs. Christopher Magee, Jr., at whose home the wedding will take place, will give the rehearsal dinner this evening. Hearts followed last evening's dinner.

Kitzmiller-Matheny.

Simplicity and beauty in every detail made the wedding of Miss Florence Bell Kitzmiller, youngest daughter of Mr. and Mrs. Edward Kitzmiller, and Dr. Albert Ralston Matheny, one of the most charming ceremonies of the season. The Rev. Dr. S. J. Fisher, pastor of the Swissvale Presbyterian church, solemnized the marriage at 8 o'clock last evening, the day being the anniversary of the bride's birthday, at the home of her parents, Hawkins station. Her sister-in-law, Mrs. Frank Kitzmiller, herself a bride of a few months, was matron of honor and there were two bridesmaids, Miss Ella Baker of Philadelphia, and Miss Myrtle Lappe of the East End. The best man was Dale C. Jennings, and the ushers were Chester Fisher and Harvey Dauler. The house was beautifully decorated. Smilax was used in profusion over all the windows and doors, and the red walls of the hall looked especially well under the green. The marble mantel in the drawing room where the ceremony was performed, had bankings of ferns and tropical plants, and the bay window where the bridal party stood, was flanked on each side by tall waving palms. The book cases in the library were banked in green as was also the table in the billiard room where white hyacinths were introduced into the scheme. Supper was served in this apartment and in the dining room, where the bridal table stood. In its center was a mound of white hyacinths and yellow roses.

The bride wore a white lace robe hung over chiffon and taffeta, while a cluster of orange blossoms fastened her tulle veil. She carried a shower bouquet of lilies of the valley. Into this, contrary to the usual custom of having them in the bride's cake, were tied the symbolic piece of money, the ring and the bodkin which were later caught by her attendants as Mrs. Matheny threw the bouquet before preparing for her wedding journey. A self-trimmed evening gown of white chiffon was worn by the matron of honor, who carried white lilacs. Made after the same fashion as her gown were those of the bridesmaids except that a touch of color was given by their yellow ribbon girdles. Their flowers were yellow roses. Among the out-of-town guests were Mrs. John Dalzell of Washington, D. C.; Miss Hartzell of Cleveland, Mrs. Henry O. Tinken of Canton, O.; and Mrs. John B. Reynolds of New York. At the conclusion of an eastern tour Dr. and Mrs. Matheny will receive their friends at the Kenmawr, where they have announced days at home after February 5.

The Vilsack-Maloney Bridal Party.

Mr. and Mrs. Leopold Vilsack of Liberty avenue sent out 600 invitations yesterday for the marriage of their daughter, Miss Mercedes Vilsack, and Robert F. Maloney, on Wednesday, February 8, in St. Joseph's Roman Catholic church, Liberty avenue and Pearl street. The ceremony will be performed with solemn high nuptial mass at 9:30 o'clock, a breakfast following at the bride's home. In the evening, from 7 until 9 o'clock, there will be a large reception, after which the bridal couple will leave for their wedding trip, returning to be at home in Dalzell place, where a new home, the gift of the bridegroom's father, will await them. Miss Vilsack has chosen Mrs. John A. Burns, a sister of the bridegroom, as matron of honor, and Miss May Florence Feuerheim, Miss Irene Mooney and Miss Annabelle Painter as bridesmaids. Valentine Oldshue will be Mr. Maloney's best man and the ushers will be Aloysius J. Vilsack, Maurice Vilsack, John A. Burns, Clarence Diebold, James White, Leo Coyle and John Reilly. Miss Vilsack will give her bridesmaids' luncheon at the Union on the Saturday preceding the wedding, the luncheon to be followed by a box party at the Alvin.

Bridge for Miss Gordon.

Mrs. Warren L. Seymour of South Lang avenue was hostess at a very informal little bridge party yesterday afternoon in honor of Mrs. Wesley Gould Carr's guest, Miss Dorothy Gordon of South Orange, N. J. There were only four tables in play, the prizes for the games going to Miss Gordon, Miss Kate Seymour, Mrs. George Reed and Miss Jane Bennett. Miss Gordon will leave Mrs. Carr on Saturday to be Miss Emily Copeland Lyon's guest for a time. Miss Lyon is now in New Haven attending the Yale prom. She is chaperoned by Mrs. Benjamin Thaw.

Moore-Moore.

EAST LIVERPOOL, O., Jan 24.—(Special.)—The wedding of Miss Mary Logan Moore and Samuel Cameron Moore of Lisbon was solemnized at the home of the bride's parents here today. The ceremony was performed by the Rev. Edward M. McMillin, pastor of the First Presbyterian church of this city, assisted by the Rev. W. P. Weir of East Palestine. Among the guests were persons from Pittsburgh. The attendants were Miss Myrtle Frazier of East Palestine and Prosecuting Attorney Robert M. Brown of New Cumberland, W. Va. Mr. and Mrs. Moore will live at Derry, Pa.

Mrs. Speer's Bridge.

Mrs. J. L. Dawson Speer entertained at her home in Bidwell street yesterday afternoon with three tables of bridge. The little affair was given for Mrs. W. I. Rose of Carlisle, Pa., who is visiting Mrs. J. P. Speer. The prizes, which were dainty cups and saucers, were captured by Mrs. David A. Stewart, Mrs. James Speer Kuhn and Mrs. J. J. Pugsley of Hillsboro, O. Mrs. Henry Graham Brown's mother and guest. Among the other players were Mrs. Harry Darlington, Miss Mary Speer, Mrs. George C. Burgwin and Mrs. John Z. Speer.

Hirsch-Harris.

Miss Anna Hirsch and Samuel S. Harris were married at the bride's home in Evaline street, East End, last evening, the Rev. Mr. Fried officiating. The only attendants were the maid of honor, Miss Jean Hirsch, and the best man, Harry Fattler. After the ceremony, which was performed at 8 o'clock, there was a wedding reception. At the conclusion of a western trip Mr. Harris and his bride will be at home in the Albion apartments in Millvale avenue.

Four Prize Winners.

Miss Mary Guthrie, Miss Fanny Reed, Mrs. William Hamilton and Mrs. Alex. McClure were the prize winners at the whist breakfast given yesterday morning by Mrs. Samuel Ayers. The guests, who surrounded six tables, had been asked to meet Mrs. R. Frederick Taylor of Worcester, Mass., who is visiting the hostess. The prizes were gold pins enameled in green.

Mr. and Mrs. Kuhn's Dinner.

Mr. and Mrs. William Speer Kuhn of Morewood place entertained with another dinner, one of the series which they are giving, at their home last evening. Covers were laid for 14, the guests including Mr. and Mrs. Hermon Griffin, Mr. and Mrs. Eugene Lawrence Messler, and Mr. and Mrs. James Harold Childs, Miss Rickelson, Miss Mary Speer, William J. Patton and Mr. Laughlin.

Campbell of the Iroquois apartments, was guest of honor at the euchre which Mrs. Alexander Johnston Henderson of Adelaide place gave yesterday afternoon. There were nine tables in play, the prizes going to Miss Estill, Mrs. Campbell, Mrs. George T. Gregg and Mrs. William Stevenson.

Notes of Society.

Mrs. Henry Challant will entertain a few friends informally at bridge this evening at her home in North avenue, Allegheny.

Mrs. Eben Clarke of Darlington road entertained with an informal luncheon for Mrs. Charles Phillips Hill yesterday afternoon.

Miss Florence Myer, daughter of Mrs. Fannie Myer, and Emmanuel Shenkan will be married next Tuesday, the Rev. Dr. J. Leonard Levy officiating.

A card party was given last evening by Miss Clara Walton Culbertson, at the home of her sister, Mrs. Roland Hadley, in Crafton, in honor of a recent bride and groom, Mr. and Mrs. Herford Brittain, also of Crafton. The bride was formerly Miss Anna Elliott Foster of the East End. Eight tables were used.

HEKKING DID FINE WORK AT LAST NIGHT'S CONCERT

Is a Fine 'Cellist and Played Almost Magically—Madame Russell Sang Pleasingly.

The third concert of the series arranged by Mrs. Updegraff at the Hotel Schenley took place last evening before an appreciative audience. It was the occasion of a recital by Anton Hekking, the Dutch 'cellist, and Madame Ella Russell, dramatic soprano. The program, which was very late in beginning, was quite short, each artist making three appearances. Mr. Hekking played "Kol Nidrei" by Max Bruch, the beautiful "Grand Fantaisie" by Servais, and a group of three short compositions, Bach's "Air," a "Melodie," by Massenet, and Jerol's brilliant "Polonaise." Mr. Hekking is one of the finest 'cellists heard here since Gerardy. His playing is marked by splendid technique and rare feeling. He evokes a rich and powerful tone with, however, the most delicious delicacy in piano passages. He was received with great enthusiasm and encored twice, giving as one supplementary number an almost magical rendition of Schumann's "Traumerei."

Mr. Hekking brought his own accompanist, Max Herzberg, who proved himself a thorough artist, playing with perfect taste and sympathy.

Madame Ella Russell, though struggling with a severe cold, sang very well her numbers, the scena and aria from Weber's "Der Freischutz;" "Stark wie der Tod" by Fischoff; "En Chemin," by Augusta Holmes, and the Arditi valse song, "Il Bacio." Mme. Russell has a strong and high soprano voice, though her mezzo tones are the most pleasing. She enunciates her words with delightful distinctness. She was well sustained by the piano accompaniment of Sidney Hamilton.

STRING QUARTET GAVE SLAVONIC COMPOSITIONS

Kunits' Program from Works of Smetana, Dvorak and Tschaikowsky Was Well Received.

Three great Slavonic composers were represented in last evening's recital of the Kunits string quartet at the Pittsburgh Conservatory of Music hall. The numbers were Smetana's quartet in E minor ("Aus Meinem Leben"), Dvorak's quintet in A major, op. 81, and Tschaikowsky's quartet in F major, op. 22. Joseph H. Gittings was the pianist in Dvorak's quintet. The hall was filled with an attentive and appreciative audience who were well pleased.

The eloquent third movement of Smetana's quartet evoked marked enthusiasm, its rendition holding the auditors spellbound. During this number the perfect ensemble of the players was especially evinced.

The last recital of the season will be given Thursday, March 2.

GREAT ORCHESTRAL NUMBERS.

Splendid Program Arranged for This Week's Pittsburgh Orchestra Concerts.

Three great orchestral numbers are included in the program the Pittsburgh orchestra, Emil Paur, conductor, will give Friday evening and Saturday afternoon, namely: Liszt's symphonic poem "Tasso;" Rubinstein's "Dramatic" symphony, for the first time here, and the prelude and closing scene from Wagner's "Tristan and Isolde."

The soloist, Lillian Blauvelt, is an annual visitor to Pittsburgh. She is the first American colorateur singer, and that she is as much admired in Europe as in her own country is evidenced from the fact that since her last appearance in Pittsburgh she has been heard with the leading societies of Europe.

Factory Inspection Discussed.

At the meeting of the Woman's club of Wilkinsburg yesterday afternoon George Rudolph, deputy inspector, talked of factory conditions in Pittsburgh. There is a general interest in women and child labor, and several clubs are devoting considerable time to this subject. At the Lancaster meeting of Federated Clubs of Pennsylvania last autumn the society appointed a committee to look into the labor laws regarding women. The chairman of that committee, Miss Mary C. Rose of Camden, N. J., wrote to the Wilkinsburg club asking that the factory inspection work in this part of the state be brought before club members. As a result, Mr. Rudolph spoke yesterday. After this address Mrs. Daniel Phillips Thomas spoke on "The Hills and the Palaces of Rome" and Mrs. J. A. Thomas on "The Forum and Ghetto." Current events topics were discussed by Mrs. Blachley. Mrs. Frank M. Gordon, who, by the way, is the founder of the Woman's club of Wilkinsburg, gave a talk on "The Vatican and St. Peter's." She had several photographs of paintings and statues to illustrate the talk.

CHINA'S REPLY TO RUSSIAN PROTEST

Calls Attention to Fact Czar First Employed Bandits as Frontier Guards.

COUNTER CHARGES ARE MADE

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—China's answer to the American government's communication calling attention to the Russian charges that the Chinese were violating neutrality was delivered to Secretary Hay today by Sir Chentung Liang Cheng, the Chinese minister. Until the answer has been read by the president, its text is withheld, but a synopsis of the note is as follows:

Regarding the charge that Chinese bandits are enlisted in the Japanese army, China calls attention to the fact they were enlisted first by the Russians as frontier guards and fought against the Japanese army. If it is true, as alleged, they are enlisted in the Japanese army, that is a matter for the belligerents, as subjects of a neutral power have the right as private citizens to enlist in a foreign army. Whenever these bandits entered the Chinese neutral zone every effort was made for their arrest and punishment, and in most cases they have been arrested.

"We find no Japanese officers in our northern army at all. We do find in the government school in Pao Ting Fu several Japanese translators. All of them, however, had been engaged before the war, and after hostilities broke out they were required to give their word of honor to have nothing to do with the conflict. These are on the same footing as Russians any other foreigners in educational institutions throughout the empire and in our maritime customs houses. China regards this as a matter of internal administration of which no other government has cause to complain."

Regarding the iron ore said to have been furnished the Japanese army, the answer says this ore is from certain mines owned by Chinese merchants separate from the government mines at Hanyang. The iron sold has not gone through furnace process. The transaction is entirely between Japanese and Chinese merchants and in fulfillment of a contract made in 1900, and is not recognized by the Chinese government. International law does not include this article under the head of contraband of war.

The Mutao islands are said to have been used by the Japanese as a base for their navy. China, for the past year, has stationed the swift cruiser Haikl to watch this island and the local prefect summoned there the gunboat Haipu as patrol. No sign of any landing of Japanese has been reported to the government, and no such permission has been given by the Chinese government to Japan.

Regarding the articles of contraband alleged to have been sent to Dalny, the answer says no ships have left Chefoo with the knowledge of the Chinese government for Dalny, and no clearance papers for that port have been issued by the Chinese customs officials. If ships have run the blockade, that is the belligerents' lookout.

Regarding the Ryeshitelni incident, it is stated the seizure was as unexpected by the Chinese as by the Russians. The Chinese government did everything it could against such seizure, and later requested Japan to return the vessel. While the incident is not closed, China considers her government has done all possible in the matter.

The Chinese government considers Russia has violated neutrality in a number of instances. Bridges have been built by the Russians west of the Liao river and Russian troops have encamped on the west side of the river, which is supposed to mark the boundary line of the neutral zone. In many places in the neutral zone the Russians have forced the sale of provisions. The Chinese have made many arrests of Russians smuggling ammunition, arms and other contraband articles.

It is stated in conclusion, that in view of the baseless charges made by a belligerent China feels it incumbent on her to make this answer and let the truth be known; that she has not swerved one iota from her neutrality, and that the general attitude of her people is peaceful and has been appreciated as such by the powers.

GREAT PEABODY TRUST HAS BEEN DISSOLVED

Trustees Vote $1,000,000 to Peabody School in Tennessee—Other Schools to Profit.

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—The trustees of the Peabody Education fund held a meeting here today and voted to dissolve their trust. A vote also was taken on the proposition to appropriate $1,000,000 for the George Peabody school for teachers at Nashville, and it was carried. The vote on the question of dissolving the Peabody trust followed considerable discussion. Several members expressed very positive opposition to the move to dissolve and when the vote was taken it stood 11 to 2. President Roosevelt participated in the proceedings and voted affirmatively on both propositions. The trust was created by Mr. Peabody February 8, 1867, and amounted to $3,000,000, but almost $800,000 of this was in bonds issued by the states of Florida and Mississippi, and subsequently repudiated. The fund today is approximately $2,200,00.

The trustees were given power to distribute this fund at the expiration of 30 years, which period ended in 1897 and since then a number of questions have arisen as to the distribution. The state of Tennessee, Davidson county, and Nashville recently offered a bonus of $1,000,00 provided the Peabody trustees would appropriate a million dollars for the Peabody college for teachers. The details of this appropriation will now be worked out by a committee.

This appropriation leaves a fund of approximately $1,200,00, which will be distributed later among other educational institutions, probably at the next annual meeting, to be held the first Wednesday in next October in New York.

INCREASE IN SALARIES FOR CONSULAR OFFICERS

Diplomatic and Consular Bill, However, Makes a Cut in State Department Estimate.

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—The house committee on foreign affairs today agreed to the diplomatic and consular bill. It carries $2,107,047, which is $78,716 more than the bill of last year and $105,180 less than the aggregate of the estimates made by the state department. A new mission is created for Roumania and Servia with a minister at $7,500 and a secretary at $1,800.

The salaries of the following have been raised to the sums given: Minister to Liberia, $5,000; first secretary of legation to Turkey, $2,625; second secretary to same legation, $1,800; secretary to legation and consul to Stockholm, $2,500; secretary to legation to Peru, $2,000; secretary to legation of Switzerland, $1,800. A third secretary is created for the embassy at St. Petersburg at $1,200. The allowance for the United States and Mexico water boundary commission is reduced from $10,000 to $5,000.

The salaries of consuls general and consuls at places named are increased to the sums named: Tangier, $2,500; Kobe, Chefoo, Niuchwang and Saint Gall, $3,500 each; Barranquilla, Calais, Liege, Toronto, Trinidad, Vancouver, $2,500 each; Port Limon, Puerto Cortez, Tamsue, Winnipeg and Zittau, $2,000 each; Bergen and Cape Haiten, $1,500 each, and Stavenger $1,000.

The general allowance for consular clerk hire is increased $10,000, and for the contingent expenses of the consular service from $250,000 to $280,000.

Support Anti-Canteen Law.

WASHINGTON, Jan. 24.—(Special.)—Representative Porter today presented to the house a petition of the Ladies' Home Missionary society of the Pittsburgh Christ Methodist Episcopal church, supporting the anti-canteen law, and one from the W. C. T. U. of the South Pittsburgh Methodist Episcopal church indorsing the Hepburn-Dolliver bill.

JUDGE LACOMBE NOW UNDER FIRE

Impeachment of the New York Jurist Asked by Philadelphia Law Firm.

DUBOIS SUIT IS MADE BASIS

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—In the mail of nearly evry member of the house of representatives today was a letter signed by the firm name of Watt & Dohan, attorneys-at-law, Philadelphia, setting forth 12 reasons why constitutional action should be taken against Judge E. Henry Lacombe, of the circuit court for the southern district of New York. Chairman Jenkins of the judiciary committee, intends to lay the matter before that committee tomorrow.

PHILADELPHIA, Jan. 24.—George W. Watt of the law firm of Watt & Dohan, in explaining the reasons for presenting charges to congress asking for the impeachment of Judge E. Henry Lacombe of the United States circuit court for the southern district of New York, stated that this action was taken because of the judge's failure to have rendered a final decision in a suit which has been before the courts for 20 years. The original suit, Mr. Watt said, was an action for damages brought by John Dubois of Dubois, Pa., in 1884 against the cities of New York and Brooklyn for an infringement upon his patent.

Mr. Dubois, who was a wealthy manufacturer and dealer in iron and lumber, is said to have been the inventor of a cofferdam an infringement upon which, it is alleged, was used in the construction of the piers of the Brooklyn bridge. He brought suit and according to Mr. Watt, was awarded damages in the sum of $905,000. The case was appealed and has been at various times contested in the United States circuit court, and finally reached the United States circuit court of appeals, which tribunal last November sent it back to the circuit court. Mr. Watt says that while 12 charges are presented to congress, the main allegation is that Judge Lacombe has been instrumental in preventing a final decree being handed down in the litigation. Mr. Dubois died some time ago and the contest is now being made by John E. Dubois, executor of the inventor's estate.

NEW YORK, Jan. 24.—Judge Lacombe of the United States circuit court today declined to discuss the request for his impeachment sent to members of the house of representatives by a Philadelphia law firm.

BELGIAN REPLY IS IN.

Answer to Congo Cruelty Charges Is Filed With the Foreign Relations Committee.

WASHINGTON, Jan. 24.—Senator Cullom, chairman of the committee on foreign relations, today presented a memorial prepared by the Belgian Protective Association of America, in answer to the charges brought against the Belgian administration of the Kongo by missionaries.

The Belgian memorial lays stress on the fact that an international commission is at work on a general investigation of the affairs of the Kongo Free State and says that the independence and fairness of the commissioners and the wide powers of inquiry given them have caused general satisfaction that the inquiry will be impartial.

WHY INTEREST IS LACKING.

Sunday School Work Reviewed at All-Day Workers' Institute.

Sunday school work was discussed from every standpoint yesterday at the All-Day Workers' institute of District No. 8 of the Allegheny County Sabbath School association, held in Emory Methodist Episcopal church, North Highland avenue.

During the evening a debate was held between A. D. Salice and D. W. Wylie on "Resolved, That lack of interest in Bible school work is due chiefly to inefficient teaching." Preceding the debate there was a general discussion on needs and difficulties of Sunday school work. The Rev. Dr. John Weidley presided.

ORDINARY CASES ARE PASSED BY

Smoot Witness Says Sentiment Is Against Prosecutions of Polygamists.

INQUIRY IS NEARING CLOSE

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—Contrary to expectations counsel for defense in the Smoot investigation before the senate committee on privileges and elections did not complete the examination of witnesses today. When adjournment was taken until tomorrow, an announcement was made that one more witness would be put on the stand tomorrow.

The testimony given today was of an unimportant character and much time was devoted to a discussion between counsel of documentary evidence offered by the defense. Frank B. Stephens of Salt Lake, was the first witness. He testified to the intensity of feeling between Mormons and Gentiles, and of the amelioration of that feeling after the Woodruff manifesto and of the co-operation of Mormons and Gentiles in charitable work. Concerning conditions in Utah and the sentiment in the community in regard to prosecutions for polygamous cohabitation Mr. Stephens said the sentiment was not sufficient to cause prosecutions except in some flagrant cases.

Chairman Burrows asked if the case of President Smith was a flagrant one. Mr. Stephens said he thought Smith ought to be prosecuted because of the example he has set.

Handicapped by Apostleship.

Senator Foraker asked concerning Senator Smoot's reputation. "It is as good as any man," replied Mr. Stephens. "If he had not been an apostle there would have been less objection to him. I think his apostleship handicapped him."

"Why do they disapprove of an apostle serving in the senate?" asked Senator Overman.

"Because it is like holding a red rag before a bull, to put an apostle up for office. The people don't want it."

At the afternoon session Mr. Stephens, as notable instances of church interference in politics, gave the cases of Moses Thatcher's candidacy, when said church influence against Thatcher resulted in the election of Senator Rawlins; later, when President Snow in 1900 favored the Republican electors, and still later, when church influence resulted in the election of Senator Kearns. The witness gave it as his opinion that a majority of Mormons voted intelligently.

Mr. Stephens said that polygamy can be stopped so far as concerns the cohabitation of those married before the manifesto only by resuming rigid prosecutions. He thought sentiment was against such prosecutions.

Witness Wallis Challenged.

Dr. Z. T. Sowers, of this city, testified that he had examined John Nicholson, recorder of the temple at Salt Lake City, who was a witness early in the investigation, and found him in a condition unfitting him to be a witness.

Mr. Worthington put into the record a list of the officers of the church. The names of those who were admittedly polygamists were marked with asterisks. William Langston of Salt Lake, who several days ago testified that James Wallis, Sr., the witness who told of the endowment house ceremonies, could not be believed under oath, was permitted to state his reasons for declaring that Wallis should not be believed. Langton then said that Wallis had charged him, for the purpose of extortion, with setting fire to his store and afterward confessed that he made the charge because he had been in communication with the devil.

David Eccles of Ogden, testified that he had not married Margaret Geddes, who was on the stand several weeks ago; Charles Mostyn Owen had testified that Mr. Eccles was reputed to be Mrs. Geddes' husband.

Announcement was then made by the defense that one more witness would be put on the stand, and adjournment was taken until tomorrow.

NAVAL BUDGET CUT.

Bill Still Provides for New Warships and Completion of Those Now Building.

WASHINGTON, Jan. 24.—President Roosevelt and Representative Fess of Illinois, chairman of the house naval affairs committee, had a conference today regarding the naval appropriation bill. Mr. Fess told the president the committee had reduced the estimates by several millions of dollars and that, as the measure now stood, it provided for a naval expenditure of about $103,000,000.

Notwithstanding these reductions, the bill will provide for the construction of additional war vessels and the completion of those already in course of construction. It is not indicated yet when the measure will be reported to the house.

TO FIX RAILROAD RATES.

Missouri Congressman Introduces Bill Enlarging Interstate Commerce Commission's Powers.

WASHINGTON, Jan. 24.—Representative Shackelford of Missouri, a minority member of the house committee on interstate and foreign commerce, introduced a bill today to regulate railroad rate making. His measure confers on the interstate commerce commission power to fix a new rate when the existing rate is found to be unreasonable.

Private freight cars and private freight car lines are placed under the control and regulation of the interstate commerce commission the same as railroads. A court to which appeals can be made is provided.

President and Party Dined by Tafts.

WASHINGTON, Jan. 24.—The president and Mrs. Roosevelt, who are dining out each Tuesday evening with the different members of the cabinet as hosts, were entertained tonight by Secretary and Mrs. Taft. The company also included the French ambassador and Mrs. Jusserand, Justice and Mrs. Brown, Senator Allison, Senator and Mrs. Elkins, Senator and Mrs. Fairbanks, Senator and Mrs. Foraker, Senator Warren and Miss Warren, Mrs. A. B. Bates and Mr. and Mrs. Charles P. Taft of Cincinnati.

Would Abolish Tariff on Hides.

WASHINGTON, Jan. 24.—(Special.)—A communication from the Penn Shoe Manufacturers' association asking for free hides was laid before the house by Representative H. K. Porter of Pittsburgh today. It is claimed by the association that the tariff on hides is not a protective measure and tends to injure American industries rather than favor them. Owing to the tariff it is argued that foreign manufacturers of shoes are able to purchase hemlock sole leather 15 per cent cheaper than American companies.

Elected City Clerk.

NEW CASTLE, Jan. 24.—(Special.)—A. Elder Rhodes, paymaster at the office of the American Tin Plate Company, was last night elected city clerk by a joint session of councils, an election being reached on the 14th ballot. There were 16 candidates.

BRITONS MAKE APPEAL FOR ARBITRATION IDEA

Copy of Monster Petition Placed in Hands of Every United States Senator.

[By Associated Press to The Gazette.]

WASHINGTON, Jan. 24.—A stimulus to the movement looking to the settlement of international disputes by arbitration was given today by the presentation to each United States senator through W. Randall Cremer, a member of the British parliament, of a printed copy of a monster petition favoring arbitration.

The petition recites a memorial signed by 234 members of the British house of commons in 1887 favoring arbitration, the reply of our congress in 1850, and the resolution of the commons in 1893 expressing cordial sympathy with the movement toward a special arbitration treaty between the United States and Great Britain.

Attention also is directed to resolutions of like purpose adopted by numerous workingmen's assemblies and to the support given by the British government. The present is declared to afford a glorious opportunity to inaugurate an era of peace.

OPEN HEARTH FURNACES MUST DO MORE WORK TO KEEP UP

Hereafter workmen in open hearth furnaces Nos. 1, 2 and 3 of the Homestead steel works will be compelled to work seven days in the week. The reason is that open hearth furnaces have been unable to furnish enough raw material for the operation of the various mills. Some of the mills have been compelled to temporarily shut down. It is expected the working of the furnaces seven days will eliminate this in the future.

Homestead Business Men's Banquet.

The Homestead business men's banquet last night was a complete success. Covers were laid for members and their friends to the number of 125. Col. H. P. Bope of the Carnegie Steel Company was to have been the principal speaker, but yesterday afternoon he was called unexpectedly to Boston on business.

THAT PAIN IN THE SIDE

There's nothing that will give such speedy relief and cure and at the same time strengthen the side and restore energy as an *Allcock's Porous Plaster.*

A pain in the right side, however, is often caused by thickening of the bile which may lead to gall stones. *The best treatment* is to wear an *Allcock's Plaster* as shown in the illustration, until cured. You'll be surprised to find how soon you are relieved.

Advice In Strange Hands

SOME people of wealth tell you, in the tone of wise men teaching a refractory scholar, that you ought to do as they do. But fortunately the American people think for themselves. They do not like to be dictated to, and prefer to think out a problem with their own brains rather than accept somebody's *theories*. Be a true American and do not permit a physician or an editor—who are perhaps prejudiced for selfish reasons—to persuade you that in order to get a cure for your ills you must go to a doctor, perhaps pay $2.00 for a prescription in Latin that few can read or understand, and take it to a drug store and pay 75 cents for a bottle of medicine which will last about a week. Furthermore, nine times out of ten the prescription calls for alcohol as a medium for dissolving the drugs. Now, the level-headed American woman who isn't over-burdened with wealth, when she is sick, when she has periods of pain and distress, knows what her needs are, knows that a prescription which was originally put up by a physician of eminence for just such cases, a specialist in woman's diseases, will give her the required strength and benefit. Doctor Pierce's Favorite Prescription has been sold for the past thirty-eight years in larger quantities than any other prescription for woman's ills. Women who have used this prescription have gotten well. It does not contain alcohol, or any dangerous drugs, and is guaranteed perfectly harmless to the most delicate system. It is scientifically compounded from active principles, extracted from the roots of the most valuable medicinal plants, and has been found most efficient in making *weak women strong and sick women well*. Follow the experience of others—write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Give a description of your case and he will tell you frankly and truthfully whether your case is one for which his "Favorite Prescription" can be recommended or not. There is no charge for his medical advice.

"I write to express my gratitude to Dr. Pierce for his medicine, 'Favorite Prescription,'" writes Mrs. Lucy A. Moss, of Meagsville, Tenn. "I was suffering for about twenty years with female disease, also sick headache, painful periods, dizziness and many other bad feelings. At last was confined to my bed and was given up by my husband and friends. I could not walk a step, and my husband had to lift me about like a baby. At last I began taking Dr. Pierce's Favorite Prescription. Took three bottles and am glad to say to-day that I feel like a new woman. Am able to do my own washing and housework, and I wish to praise Dr. Pierce's Favorite Prescription world-wide. I cannot say enough for it; it is worth more than all I could say of it."

"I have used your medicine, and can say there is none to equal it," writes Mrs. Samuel Taylor, of Ransom, Kans. "I recommend it to all I know to be in need of medicine, and all seem equally pleased with it. The medicine speaks for itself. One of my lady friends, the doctor said, had ulceration of womb, and she has, I believe, used twelve bottles of 'Favorite Prescription,' and is now in the best of health, after trying the home doctor quite a while. So your medicine will sell itself. I have great faith in Dr. Pierce's medicines, and will always speak a good word for them."

"I have taken several bottles of Dr. Pierce's Favorite Prescription and cannot praise it enough," writes Mrs. Wm. Greenbalgh of Colfax, Iowa, Box 37. "I think it has no equal for female weakness; it is worth its weight in gold. You are at liberty to use this testimonial if you wish."

COUNTRY FOLKS ARE PERPLEXED

Ask How They Can Enjoy Privileges Commanded by City Proverb Solvers.

A SUGGESTION IS OFFERED

Among the many writers taking advantage of the announcement that all reasonable questions bearing on The Gazette proverb problem contest would be answered from time to time in these columns, are many who reside in the country districts, who have asked information on standard works on proverbs and where such publications can be secured. Some cited the fact that the advantages of public libraries and first class book stores enjoyed by their city cousins are foreign to them, and seek advice as to how to share in such benefits.

There seems but one practical suggestion that might offer these country readers equal opportunity with those living in larger communities, and that is by co-operation. As there are quite a number of recognized authorities on proverbs, as shown by the list suggested in these columns some days ago, a substantial outlay would be required for each solver in this contest to secure all these works for his or her own personal benefit. If, however, several contestants residing in one small community would pool their issues, insofar as to co-operate in the purchase of books on proverbs, and form a circulating library among themselves, this question might be solved to considerable extent.

Consider the Conditions Carefully.

There is still much evidence that many of the contestants have not taken careful consideration of the conditions of the contest, particularly the regulation regarding application for back numbers of The Gazette containing proverb illustrations. Many have lost sight of the fact that Sunday issues are sold at 5 cents each. Others have ignored the provision that those living in Pittsburgh must enclose postage with their list of desired papers and money covering the expense of the papers. The postal laws do not permit the publishers of this, or any other paper, to enjoy pound rates in mailing papers to residents of Pittsburgh, and the ordinary postal rates are charged. Contestants residing in Pittsburgh would do well to make personal application at the business office of The Gazette for such papers as they desire.

"S. E. L." of Denver, Col., asks if it is permissible to use the blank designated for one problem, for another, by changing the number which appears upon the blank. No, this is not permissible. Solution blanks are not to be changed in any way.

"Mrs. M. A. B." of Pittsburgh asks if solution blanks should be filled out with pencil or pen and ink. This point is covered in the conditions of the contest, which announce that blanks can be filled out in any legible manner.

Penmanship Not a Factor.

It is expected that solvers do the best they can, but penmanship will not be taken into consideration. However, it would be well to remember the new condition that "reasonable" neatness will be taken into consideration in making the awards. In the first contest many blanks were returned as if recklessly torn from the pages of The Gazette and many were received folded and turned upsidedown. These are some violations of "reasonable" neatness that it is expected will be remedied.

"S. J. L." of Edgewood Park asks what the standard of punctuation is and if new proverbs in the first contest are to be repeated in this contest. The standard of punctuation will be the authority from which each individual proverb is selected. Proverbs used in the first contest will not be repeated in the present contest.

"A. M." of Pittsburgh asks several questions, all of which are clearly covered in the conditions. He asks if it would not be easier and speedier for the committee on awards if all duplicate solutions be kept in their proper numerical order. We think so, and that is one reason why several pounds of type have been pounded out of shape trying to convince solvers through these columns that this is just exactly what we want them to do.

Warning to Be Observed.

In the last words of warning in the first contest, the following appeared: "See that answers are arranged numerically or they will be thrown out. If you have more than one answer for any of the problems they must be returned together, in the rotation of the numbers appearing on the blanks, for example: If you have three solutions for No. 8 you must have three No. 8 blanks filled out and placed between your solutions for No. 7 and No. 9."

The same writer asks if the chances of winning a prize would not be greater if all solutions were returned under one cover than by returning them in separate sets. Of course. The liberty of returning as many sets as desired is only an option solvers have in making returns. He concludes by putting the following question: "If two sets of answers would be considered as a whole, why are they required to be in separate envelopes?" Two sets of answers in separate cover will not be considered as a whole under any circumstance. If "A. M." returns two sets of answers separately, they would be treated in the same manner as if two separate and distinct solvers had made returns, with the one disadvantage that no one solver will be awarded more than one prize.

"Mrs. W. J." of Bellevue, asks if the inscription on the fence in proverb problem illustration No. 41, "Watch the old lady grow young," is included in or bears upon the proverb intended to be illustrated.

Slogan of the Gazette.

As explained in a former article describing No. 13 of the first contest, the "balloon picture," the slogan of The Gazette is likely to appear at any time in the proverb illustrations. For the benefit of "Mrs. W. J." we will say "the sign on the fence" in No. 41 need not be taken into consideration in solving the proverb—in fact, the picture would fulfill its purpose without this inscription. However, we cannot give this information in the future, and solvers must use their discretion in these matters. They can be assured that nothing will appear in the illustrations to conflict with the intended proverb.

"H. A. L." of Pittsburgh put an old question in a new dress. He states he finds one given authority presenting one proverb in several forms, and he is somewhat in doubt whether or not he will suffer if he returns what he considers the "fairest" interpretation. The only safe plan is to return all of the most plausible solutions. It is no doubt true that these many versions of a single proverb are due to public misquotation of the original author. Possibly later authorities found old proverbs so constantly misused that doubt was created as to which was the true and original expression of the author of the proverb. In selecting proverbs for this contest it was the aim of a man well versed in English literature to secure authoritative proverbs and such as he selected are being illustrated. There must be uniformity and equity in passing judgment upon solutions, and the only fair method clear to the manager of the contest at this time is expressed in the conditions by applying the proverb illustrated as the proverb for solution, and allowing solvers unlimited range in making returns.

ASK MISS GIBNEY TO GIVE A BOND

Klaus J. and Gottlieb Steiner of Allegheny File Affidavits in $100,000 Suit.

IS A RAILROAD IN CONTEMPT?

Klaus J. Steiner and Gottlieb Steiner of Allegheny, who are defendants in two suits aggregating $100,000 damages, brought by Edith Isabella Gibney of St. Louis, in which she alleges the son broke his promise to marry her, and the father, with others, engaged in a conspiracy to prevent the marriage, filed affidavits demanding that the plaintiff give security for the costs as she is a non-resident of the state.

Judge Buffington, in the United States circuit court, granted a rule on the plaintiff returnable February 5, when arguments will be heard in the matter. The trial if ever heard is expected to be a sensational one, as the defendants, under their privilege in the case, do not have to file affidavits of defense, but can permit all facts to be brought out in the trial.

Common pleas court No. 2 granted the petition of John A. Snee for a rule for an attachment against the West Side Belt railway for contempt of court. Some time ago suit was entered against the railroad and an order made directing it to remove an obstruction placed in Peters creek, which changed the natural course of the water and allowed it to flow over Snee's property. The railroad was given 90 days in which to remove the obstruction, but the road carried the case to the supreme court, which affirmed the order. It is alleged the obstruction has not been removed.

John Eichenauer was appointed a commission to inquire into the sanity of William C. Staving. The order was made on the petition of Lyda C. Staving, his wife, who alleges he is unfit to conduct his business, and that he has been confined in the asylum at Dixmont since March 17 last. The petition was also signed by his brothers, Harry P. Staving and Edward C. Staving. William C. Staving conducted a stall in the Allegheny market house.

Catherine Higgins, administratrix of the estate of Michael Higgins, filed a bill in equity asking for an accounting of a partnership in which Higgins was engaged. The suit is directed against Lawrence P. Higgins, executor of the will of John P. Higgins, the other partner. The bill alleges that John P. Higgins died before rendering an accounting, but before his death purchased property in the Fifteenth ward as firm property, to be used as a mud yard, but in his will disposed of the property to his brother, Lawrence.

Andrew Kolos, convicted of uniawful cutting, was sent to the workhouse for nine months. Kolos cut Ladeslaw Wadeski, a fellow countrymen, at a Polish wedding in Allegheny on September 14 last.

A. G. Baldwin pleaded guilty to forging a check for $50 on Benjamin Pearlman and was sent to the workhouse for three months.

John Markrantz, a hotelkeeper of Coulter station, was sent to the workhouse for three months for unlawful cutting.

Bernard Hoffman and other property owners of Shaler township, near Glenshaw, filed an equity suit against the Ramsey Powder Company to restrain it from building on adjoining property. The bill of complaint alleges it is believed the building is to be used for storing powder.

Elizabeth L. Smith, wife of Albert E. Smith, filed a petition asking to be declared a feme sole trader.

Exceptions to the award of the viewers who determined the value of property of the Crescent Land Company taken by the West Side Belt Railroad Company, were dismissed by Judge Kennedy. The viewers awarded the land company $85,080 88.

Common pleas court No. 2 granted decrees in divorce to H. R. Weaver against Christiana Weaver, desertion; Annie McCutcheon against Rody R. McCutcheon, indignities; Lulu Lewis against Robert E. Lewis, desertion; Henrich Wahl against Anna J. Wahl, desertion; Anna Loll against Anthony Loll, desertion; Margaret L. Whited filed a libel against Harry S. Whitted, alleging desertion.

A petition in bankruptcy was filed against the Butler Builders' Supply Company of Butler, Pa. The petitioners, Wilson Bros. of Pittsburgh, Robert R. Sizer & Co. of New York and C. F. Thauwald & Co. of Cincinnati, present claims amounting to $3,884 83.

ACTED ON BOND ISSUE.

Grand Jury Recommended That $600,000 Be Raised for Jail Improvements—True Bills Returned.

The grand jury yesterday favorably recommended the issuance of $600,000 in bonds by the county for improvements and extensions to the jail, now in course of construction. The petition for the issuance of the bonds was presented by the county commissioners in accordance with the action of the prison board, which instituted the jail improvements. Before the bonds can be issued the petition will have to be approved by the next grand jury. The recommendation was signed by all the members of the jury.

Among the true bills returned was one against Bozo Tatalovitz, charging him with murder. The prosecutor is Coroner Armstrong. The defendant is charged with the murder of Dusan Haiden, a laborer, 22 years old and single, of 410 Delaney alley, McKeesport. The men had a quarrel on December 31 last, and Haiden received a knife thrust in his abdomen, which caused his death the next day at the McKeesport hospital.

The other true bills were: Felony, Frank Kearns, Garfield Perry; assault and battery, James Smith, Milton Teesdale, Joseph Williams; aggravated assault and battery, John Gasparovia, Michael Spahar; entering a building, etc., Leb Hacket (2), Joseph Surrney; entering a railroad car, etc., William Geiger; false pretense, Annie O'Brien, Edward Zang; selling liquor illegally, William Davis, Robert Brodie; larceny, Leb Hackett, Charles Hill, Leonard McTaggart, Frank Summers, Mary Wanik, Mary Zytch; larceny by bailee, Elmer Johnson, Emma Parkes; receiving stolen goods, Lizzie Waiter; keeping a gambling house, Walter Hall; Joseph Williams; misdemeanor, Herman Kamin, Harry Friedman, R. R. McCutcheon, et al.; nuisance, Kate Stevenson.

Buckhout of State College was unable to be present, and his paper on "Botanist" was read by Secretary of Agriculture Critchfield. A paper on "Clover" was read by Dr. A. I. Thayer of New Castle. A joint meeting of the board and the State Poultry association was held tonight. A business meeting of the State Poultry association was held this afternoon, and the following officers were re-elected: Morris G. Temple of Pocopson, Pa., president; A. D. Arnold of Dillsburg, vice president; George Watson of State College, secretary; Dr. E. H. Watson of Neffsville, treasurer.

IF A 2 CENT STAMP WILL SAVE YOU HUNDREDS OF DOLLARS AND YEARS OF SUFFERING AND ANNOYANCE.

Wouldn't it be a pretty good investment? if you are a sufferer from Catarrh or Deafness, send a 2-cent stamp to Pretzinger Bros., chemists, Dayton, O., and they will mail you a sample of Pretzinger's Catarrh Balm, which has been proven by thousands to be a positive cure for all forms of Catarrh and its kindred affliction—deafness. Easily applied—gives instant relief, and you'll thank us for the advice. For sale by druggists. If not, a full-sized jar will be sent prepaid on receipt of 50c. But send for the sample first. That'll prove the claims of Pretzinger's Catarrh Balm.

"Your trial package of balm was received last week and in its first application with my eight-year-old boy really performed a miracle in a single night. He has been densely deaf and partially deaf for about four years, caused, we think, by catarrh and scarlet fever. The next morning after using the balm the child heard perfectly well and has continued so ever since."

"LITTLE GIANT'S" GOOD RECORD

Pittsburgh & Lake Erie Railroad's Annual Report Shows Excellent Results.

NET DECREASE IS VERY SMALL

Net earnings kept up to only $177,293.29 less than 1903, when gross earnings decreased to $1,244,619.87, is the record of the operations of the Pittsburgh & Lake Erie railroad as shown in the reports submitted at the annual meeting of stockholders yesterday. How well the management of the "Little Giant" has succeeded in overcoming the handicap caused by adverse industrial conditions can be seen from that statement.

Two new members of the board were chosen yesterday. They are J. P. Morgan and William Rockefeller of New York. They succeed E. D. Worcester, deceased, and E. V. W. Rossiter, resigned. Messrs. Morgan and Rockefeller are on the other boards of the Vanderbilt system, and their addition to the Pittsburgh & Lake Erie directorate is said to be without special significance.

The Pittsburgh, McKeesport & Youghiogheny railroad, which controls the up-river lines of the Lake Erie, also held its annual meeting yesterday. The boards elected for the two roads are as follows:

Personnel of Two Boards.

Pittsburgh & Lake Erie—W. H. Newman, president; William K. Vanderbilt, F. W. Vanderbilt, Hamilton McK. Twombly, J. P. Morgan, William Rockefeller, J. M. Schoonmaker, John G. Robinson, M. W. Watson, Henry Hice, D. Leet Wilson, John S. Jackson and George E. Shaw.

Never Killed a Passenger.

How the Pittsburgh & Lake Erie compares with other railroads may be considered from the following statements from the report of Col. J. M. Schoonmaker, vice president and general manager of the company:

The average of passengers killed or injured on all railroads in this country last year was one to every 82,023 carried, while the average on our line was one to every 810,988 carried, no passenger having been killed since opening of the road 28 years ago.

The average tonnage carried on all railroads last year was 4,222 tons a mile of road, while the average on our line was 121,607 tons a mile, or 20 times greater.

The average injury to our employes on basis of tonnage carried was four-sevenths of the average on all lines, while the loss to company property on the same basis from all causes was less than one-sixth of the average on all lines.

These facts better express the good work of our operating department than any words at my command, to whom, as also to all other departments, the thanks of the management are gratefully tendered.

MERGER CALLED OFF.

Plan to Combine the Independent Plate Glass Concerns Given Up.

It was stated yesterday that after careful investigation the plan of combining into one company the independent plate glass concerns of the United States has been abandoned, on account of the prices asked for the plants being considered excessive. W. H. Donner, who was active in the promotion of the Union Steel Company, later absorbed by the United States Steel Corporation, made the investigation.

The nine independent plate glass concerns are: Heidenkamp Mirror Company, Springdale, Pa.; Columbia Plate Glass Company, Blairsville, Pa.; Penn-American Company of Pittsburgh, plant at Alexandria, Ind.; Standard Plate Glass Company, Butler, Pa.; Kittanning Plate Glass Company, Kittanning, Pa.; Allegheny Plate Glass Company, Hite, Pa.; St. Louis Plate Glass Company, Valley Park, Mo.; Edward Ford Plate Glass Company, Toledo, O., and Saginaw Plate Glass Company, Saginaw, Mich.

HEAVY STEEL ORDERS.

Rails Now Contracted for With the Pool Mills Aggregate 1,000,000 Tons.

NEW YORK, Jan. 24.—(Special.)—It is officially stated that orders for about 100,000 tons of steel rails have been placed within the last few days. The orders are evenly divided between the Lackawanna Steel Company and United States Steel Corporation. Orders for rails now on the books of the mills associated with the pool foot up to 1,000,000 tons.

A representative of a large steel manufacturing concern says that no meeting of the steel rail pool has been called as yet. "If a meeting is called," said he, "it will be an informal affair, as there will be no change in the present price of rails, no matter what proportions the demand reaches."

DESPITE CONDITIONS, YEAR WAS A GOOD ONE

Standard Underground Cable Co.'s Annual Report Shows Successful Operation.

Stockholders of the Standard Underground Cable Company held their annual meeting yesterday in the company's offices in the Westinghouse building. The report showed that despite the unfavorable character of the general business during the year the company paid 12 per cent dividends and made an addition to the surplus. The report of President M. W. Watson and Vice President and General Manager Joseph W. Marsh to the stockholders is given below. No balance sheet is made public. The statement follows:

The gross business for the year was $8,571,553, representing the combined output (not counting rods rolled for our own wire mill) of your rod and wire mill, weatherproof factory, rubber insulated wire factory and cable factories. Out of the net earnings for the year our usual dividends (12 per cent for the year) were paid, aggregating $240,000, and the remainder of the earnings were added to the surplus account.

The unfilled orders on hand December 31, 1904, aggregated over $1,000,000, and a very fair volume of orders has been booked so far this month. Our material bills continue to be regularly discounted; the company has no outstanding notes, mortgages, bonds or preferred stock, and no contingent liability on customers' notes.

The same directors were chosen—Mark W. Watson, James H. Willock, John Moorhead, Jr., John B. Jackson, B. F. Jones, Jr., Robert Pitcairn, J. N. Davidson, William A. Conner and Joseph W. Marsh.

Mrs. P. Hackett, of 400 Van Buren St., Brooklyn, N. Y., says: "I wish to give thanks for the marvelous cure of my mother by Cuticura. She had a severe ulcer, which physicians had pronounced incurable. It was a terrible disfigurement, and people would stand in amazement and look after her. After there was no hope from doctors she began using Cuticura Soap, Ointment, and Pills, and now, thank God, she is completely cured, and her face is as smooth and clear as ever."

STOCKS CLOSED LOWER, BUT WERE NOT WEAK

Foreign Markets Were Steadier, but Wall Street Was Disposed to Await Further Developments—Local Securities Quiet.

By JOHN O. BAGLIN, Financial Editor.

New York stocks closed lower yesterday, but at no time during the day was the market distinctly weak. The feeling might be described as apprehensive, with the public holding off for further developments and the professional traders lacking the courage to attack the market. The news from abroad indicated steadier markets in London, Paris and Berlin, although the recovery in prices was disappointing. Consols closed 1-16 higher, French rentes less than ⅛ higher, and Russian bonds the smallest quotable fraction higher. In Wall street trading during the first half of the session was about 50 per cent as large as during the same time on Monday, while the total for the day fell short about 300,000 shares.

The news from the Russian capital did not indicate that the strikers' riots had risen to the dignity of a political revolution, and while the industrial troubles were reported to be spreading at a rapid rate throughout the empire, they did not differ materially from the incidents which attended our railroad strikes in 1877 or the iron and steel strikes of more recent years in Western Pennsylvania. Of course, the situation in Russia today is altogether different from the situation in the United States at any period of industrial disturbance, but there is as yet no positive indication of organized revolution, and if that can be averted until such time as the present ruling powers become sane enough to grant some sort of representative government, no real cause for alarm on the part of the holders of the Russian public debt will exist, and hence a menace to foreign security markets will be removed.

London's quotations for American securities were slightly below the New York parity, but in the latter market there was a moderate recovery during the early part of the day. The Erie stocks were notably strong, and on the curb Interborough Rapid Transit made a new high record, producing a stimulating effect upon the regularly listed traction shares. Late in the afternoon a serious break occurred in General Electric, which closed at 181¾, a net loss of 5 per cent. This decline was based upon rumors that the forthcoming annual report would show a decrease in earnings. This was certainly warranted by business done last year, and has been contented upon before as entirely probable, but yesterday it was brought forward as something new. Heavy selling of Rock Island also occurred during the latter part of the session, and this movement was accompanied by rumors of labor troubles on the system. Union Pacific declined rather easily, and as it is looked upon as a leader, it had an effect upon the remainder of the list, which closed at or near the lowest of the day. United States Steel preferred closed at a net gain of ¼ per cent and Amalgamated Copper closed unchanged.

Call loans remained easy and closed at 1½ to 2 per cent. It is probable that considerable exports of gold will be made to Paris tomorrow, and as heretofore stated foreign banking houses have engaged the entire office's output of gold coin until the middle of March. Still, there is no apprehension of stringency in the New York money market, and the fact of time loans being quoted so low is good evidence of prevailing sentiment on this point.

There was a further contraction of business on the local stock exchange yesterday, but the trend of prices was not uniformly downward, and up to within a few minutes of the close several specialties displayed strength. Westinghouse Electric sold off, evidently in sympathy with the break in General Electric in the New York market, but the other Westinghouse issues were steady to firm. Pittsburgh Coal common rallied a fraction and closed ¾ per cent higher at 21⅞. The preferred was steady at 80 to 80½, closing at the lower price. Manufacturers Light and Heat rallied to 33¾, but was offered at 68½ at the close. Ohio Fuel Supply rallied to 42 and closed at that price bid. Crucible Steel preferred was firmer and at one time rallied to 64¼, but reacted to 63½ at the close. The common closed unchanged at 12. There was more doing in the bank and trust company group, but prices averaged lower. Union Trust sold at $2,989, a decline of 20 points, and Pittsburgh Trust closed 10 points lower at 470, after selling at 465. Commonwealth Trust declined 2 per cent to 210, while Guarantee Trust advanced 2 per cent to 182. There was nothing doing in bonds.

NOTES AND COMMENT.

The Keystone National bank of Pittsburgh was elected a member of the Pittsburgh Clearing House association at a special meeting yesterday. This restores the membership to 21, and is the same as last year before the retirement of the Tradesmens National, and is the first admission of a new member since 1902, when the Mellon National was admitted. At the meeting yesterday the association also changed the hour for the daily clearings from 9:30 to 10 a. m., and the return hour for members from 1 to 2 p. m. The change in the hour for clearings will enable banks to expedite current business. It has frequently occurred that a slight delay in eastern mails would shut out a mass of business to the succeeding day which should have been cleared the day of arrival. The change will also be a convenience to stock brokers who handle New York business, by enabling them to deposit drafts and checks on the day of arrival and have the same cleared. Mr. Andrew Long, cashier of the Exchange National bank, was elected chairman of the clearing house committee.

The American Hide and Leather directors yesterday declared an initial dividend of 1 per cent on the preferred stock. The company was organized in 1899, and the $12,500,000 preferred stock bears 7 per cent cumulative dividends, so that there is still about 41 per cent accumulated which must be paid before the common stock can participate in the earnings. The preferred yesterday opened at 40, advanced to 50, declined to 48½, rallied to 49 and closed at 48¾.

The gross business of $8,571,532 reported by the Standard Underground Cable for the past year compares with $8,685,964 in the preceding year. In the report submitted to stockholders yesterday the net earnings were not stated, but for 1903 they were $474,706 after the payment of dividends. The corporation is one of the few industrials which has no preferred stock, bonds, floating debt or contingent liabilities on customers' notes of any kind.

The Pittsburgh Trust Company has declared a quarterly dividend of 3 per cent, payable January 31 to stock of record January 26.

The Consolidated Gas Company of Pittsburgh has declared the usual semi-annual dividend of 3 per cent, payable February 1 to stock of record January 28.

A seat in the Philadelphia stock exchange sold this week at $9,000, and that price was bid.

The surplus earnings of Consolidated Gas of New York for the year 1904 were $2,600,000, an increase of $100,000.

The surplus reserves of the Philadelphia banks now amounts to $15,694,000, the largest for years.

Managers of the Ewalt Street Bridge Company have declared a dividend of $2 a share, payable on demand.

The capital of the new Independent Brewing Company has been definitely fixed at $13,500,000, equally divided among the common and preferred stocks and the 6 per cent bonds. The subscriptions to the preferred stock, which is 7 per cent cumulative, and the bonds, are now being received. Subscriptions, according to street talk, carry 65 per cent of common as a bonus for every $1,000 preferred stock and bonds. In other words, a subscriber for $1,000 preferred stock and $1,000 bonds would get $650 worth of common stock.

Pittsburgh Brewing common sold to the extent of 420 shares at 28¼ to 28⅝, the final sale being at 28½, a net advance of ⅛ point.

National Fire Proofing common closed ½ higher at 12½, and the preferred ¾ lower at 34½. Dealings were light.

A small lot of Monongahela Water changed hands at 40, a decline of $5 from the last previous sale.

Tonopah Extension sold at $4 60 and closed offered at $4 50, a total decline of 20 cents a share for the day. The weakness was said to be due to unfounded rumors regarding the probable outcome of litigation for determining the contention over the apexing of the vein on the property of the company.

Guarantee Title and Trust closed 2 per cent higher at 182. It was the only member of its group that closed at a net advance.

Announcement is made of the successful closing of the Oregon Short Line bond syndicate, the bonds having all been sold. No funds were called from underwriters by the syndicate.

A Washington dispatch says: Railroad presidents and financiers are bringing personal pressure to bear on the president. J. P. Morgan and E. H. Harriman have both seen him and have urged caution in legislation.

There was a disposition to attribute the the movement in Erie which was quite conspicuous to a supposed connection with the wide-reaching settlement of the Northern Securities case which is a potent mystery for stimulating all sorts of movements in the market but the firmness of the coolers had a more substantial explanation in the statement of the net earnings for December of the Central Railroad of New Jersey, disclosing favorable conditions not only in the high level of gross earnings, but in a cutting down of operating expenses.

Reports of very heavy orders by railroads for bridge material were a help to United States Steel preferred.

A sharp rise in the International Mercantile Marine stocks on the curb was an influence on the industrial list.

RECORD-BREAKING DEAL IN REALTY

Dilworth Warehouse in Second Avenue Sold to Ruud Heater Company for $110,000.

SALE OUT CENTER AVENUE

A record-breaking real estate deal in point of time was put through yesterday by John K. Ewing & Co. and the Currier Company, who sold the new Dilworth warehouse at 340-342 Second avenue for $110,000 cash. The property was brought to Mr. Ewing's notice at 10 o'clock. At 11 o'clock he had an offer. At 3 o'clock the price had been agreed on and at 6 o'clock the articles of agreement were signed and $5,000 in hand money paid. The property has been on the market for some time and several deals for it have fallen through. It consists of a seven-story brick and steel fireproof warehouse on 30x80 feet, facing on the south side of Second avenue, midway between Wood and Smithfield streets. The property belonged to the Dilworth estate and was sold by William T. Dilworth, trustee, to the Ruud Heater Company. The warehouse has a renting value of $11,500 a year. A box company occupies the three upper floors, but the rest of the building has not been used. The purchasing company, which has offices at 307 Wood street, will get possession as soon as the deeds are delivered, and will occupy the entire building with its business.

Bought in Center Avenue.

Through the Commonwealth Real Estate Company Mary C. Thaw has sold to John M. Bryden of the East End Mantel and Tile Company 100x150 feet on the north side of Center avenue, just east of Graham street, Twentieth ward, for $16,000, or $160 a front foot. The site is vacant and will likely be improved in the near future with a plant for the mantel company, as it recently sold its present location to Center avenue.

The Commonwealth Real Estate Company and J. P. Donovan has leased for the Sawyer heirs to the John Degelman company the three-story brick building, 20x80 feet, at 432 Wood street, for five years. The lessees have been in the haberdashing business in Pittsburgh over 25 years and will open up a fine store in the new quarters April 1.

It develops that the property of the Calvary Episcopal church at Penn avenue and Station street, which was sold a few days ago by C. G. Paul for $85,000, was bought by William J. La Fountaine of Cleveland. It is announced that the buyer will use the site for a big automobile garage, the intention being to store vehicles used by men who come to this point via the train service and from their business. In spite of all denials, there still remains a very strong impression that the Pennsylvania Railroad Company will get the property at no distant date, as its other holdings and announced projects make this site especially desirable.

New Firm of Old Brokers.

The announcement of the new real estate firm of Davies & Green will be somewhat of a surprise to the fraternity in general. The members are John M. Davies, president of the Liberty Real Estate Company and one of the best known brokers in the East End, and J. Irwin Green, secretary and treasurer of that company. Mr. Davies has been in the real estate business in the East End 14 years, having been head of the firm of Davies & Co. until its merger with the larger concern in April last. Mr. Green was former manager of the Wilkinsburg branch of Davies & Co. and has had seven years' experience in real estate. Both men have resigned their offices with the Liberty Real Estate Company, but will remain on its board of directors. They have secured offices in one of the company's buildings at the southeast corner of Penn and Shady avenues and will open for business at once.

A novelty in signs has just been put out by the Wilkinsburg Real Estate and Trust Company, which has adopted the keystone form. The sign is unique in its appearance and wording, making it easily distinguished from that of any real estate sign ever used.

In the deal for the Arenson-Friedman property in Grant street, which was reported Sunday at $184,000, the exact price named in the agreement is said to have been $140,000, which is what the property has been held at for some time. It is understood that this deal was on a trade basis, but it is not known what property was given in payment.

Will Build Tenements in Allegheny.

Henry Phipps, as announced in The Gazette yesterday, will build model tenements in Allegheny, the city of his birth, similar to those already planned for New York. The buildings will be four-story brick structures, fireproof, and the suites will contain from three to five rooms each. They will be supplied with baths, heated by steam and lighted by electricity. It is the intention to rent the suites for from $12 to $18 a month, prices that will appeal to the good class of working people, and will at the same time make the property self-sustaining. No other plans have been closed, and no formal announcement has been made of the approximate amount that Mr. Phipps will spend in Allegheny. Plans for some of the buildings are now being prepared.

Architect C. L. Phillips has plans for a three-story brick warehouse for James E. McMonagle at 135-139 Washington street, to cost $40,000.

Architects Rush & Russell are preparing plans for an addition to the Shadyside Presbyterian church.

Architect A. C. Shotte has plans for two brick warehouses in Allegheny to cost $40,000.

Plans are being prepared by Architects George S. Orth & Bros. for the 10-store block which the Pittsburgh Realty Company will build at 220 Fifth avenue at an approximate cost of $125,000.

Architect W. H. Simms has plans for a $40,000 residence for a prominent business man in the Squirrel Hill district.

EGGS STIFFEN UP WITH INCLEMENT WEATHER

Prices Advance a Little, but All Lines in Local Markets Are Dull.

That the egg situation is purely the result of weather conditions was evidenced yesterday when the market stiffened up again and prices went up a cent on account of the bad weather. The announcement that eggs were coming in by boat created a stir among the out-of-town buyers, and wholesalers had their own troubles with them. They wanted eggs yesterday at the prices that should prevail after another week or two of favorable weather and abundant shipments. The price is bound to drop again, however, and the 20-cent mark does not seem very far off.

In all other lines business in the local markets was exceedingly slow yesterday. Dealers had little to do. Potatoes are a slow sale and the price has dropped a few cents on the bushel. Lettuce and other southern green goods also show signs of a drop, the price having gone down materially the past week. All root vegetables are off a little and the market seems very apathetic.

In groceries the wholesalers stated yesterday that purer sugar than ever is in the market. News from Russia that they did in the price of flour or sugar. In fact, few inquiries were made yesterday as to prices. There was a fairly good demand, but everybody seemed to be satisfied with the present figures. The volume of business gives promise of being much greater this week than last.

HAY AND GRAIN.

Receipts.

Receipts of hay and grain yesterday were as follows: Pennsylvania lines, 14 cars hay, 22 cars oats, 16 cars corn; Pittsburgh & Lake Erie, 1 car hay, 2 cars oats, 1 car wheat, 1 car rye; Baltimore & Ohio, 1 car feed, 2 cars hay, 1 car straw.

The hay and grain market was extremely dull yesterday. Oats have weakened and prices are down a quarter of a cent. Corn is also moving down, and it is believed the high figure has been passed for the season. Hay is in good demand and prices are holding firm, while feed is getting very low to what is considered a more reasonable level.

NEWS FROM THE MINES.

The treasurer's report of the Cripple Creek Consolidated for the year shows that the receipts amounted to $20,075 78. The expenditures were $11,265 32, including the dividend of $8,910 01. This leaves a balance in the treasury of $10,453 12.

The Work company has declared a half-cent dividend, amounting to $6,250. The company is capitalized for 1,250,000 shares.

The new strike made in the 1,300-foot level of the Last Dollar mine, while very little developed, so far, is proving to be a wonderful find, and the fact that the ore was encountered at such great depth makes the strike all the more interesting. The ore opened up is fully 10 feet across and shows average values of $50 to the ton. It was encountered at a point east of the shaft and is undoubtedly the same vein as was opened the other day in the Rubie, an adjoining property. Considerable excitement is manifested over the find and everybody is feeling sure that the opening that is the future of the mines of the Cripple Creek district is brighter than ever.

Operations through the Gregory shaft of the Elkton company are now being pushed by lessees, who are shipping about three carloads of ore a month. From the entire property, including the company's own shipments, 1,000 tons of ore are being produced a day, and the profits of the company are in the neighborhood of $225,000 a month.

A strike which promises to be important in the Monarch district was made in that camp last week by A. Unger, a prominent Salida business man, and Charles Angelo, sheriff of Chaffee county. At a depth of 350 feet in the Fairplay tunnel on ore body five feet thick, and running high in silver and lead, was encountered. The property is located within a few hundred feet of the famous Madonna mine, which produced $500,000 before the silver slump, and in which a rich strike was recently made. President J. C. Calhoun of the Salida State bank visited the strike and declares it looked like a bonanza.

A strike which proves the limits of the Cripple Creek district to extend far beyond what has heretofore been believed to be the boundaries has been made on Copper mountain a mile north of Cripple Creek. The strike was made on the fifth New station belonging to the Copper Mountain company. The ore shoot is beyond question the source of the great ore pocket worked a number of years ago on the Fuerine property adjoining. That ore pocket yielded about $175,000 worth of gold bearing rock and then pinched out. The present find was at a depth of about 750 feet and the breast of the level is being broken four feet wide and the extent not determined on either side. Ore bins have been erected and rock is being hoisted and saved. Grab samples from the bins go better than $50, while some of the ore samples bring as high as $1,000 to the ton in gold.

The Cripple Creek and Temple Mining Company, which owns the Rocky Point and Looe ore claims, consisting of 21 acres, located about three and one-half miles from Crested Butte, Col., has just given a five years' lease and a bond in the sum of $1,000,000 on the property to Julius Hirschfeld & Company of Philadelphia, Pa. The lease calls for a royalty of 20 per cent of the output, but the bond will undoubtedly be taken up long before the time limit. It is payable in installments. The first payment must be made within two years; the second within three years and the third before the expiration of five years. There is ore already blocked out and in the bottom of Hirschfeld shaft sufficient to keep a mill of 100 tons capacity at once.

The Metal Market.

NEW YORK, Jan. 24.—The London tin market was higher, with spot quotations at £130 15s and futures at £129 15s. Locally the market remained quiet but was steady, with quotations ranging from 29.00@29.50. Copper was a little lower in London, but so far as could be learned no important concessions were offered here in the local market. In some instances lake is quoted a little under the figures given, but it is not probable that much actual business could be done below $15.50. Electrolytic remains at $15.37½@15.50 and casting at $15.00@15.25. Lead was 5s 9d lower in London at £12 15s 3d. Locally a move to the quiet point is apparent and the $4.45@4.50 quotation was unchanged at £24 17s 6d in London and at $6.20@6.30 locally. Iron closed at 55s 9d in Glasgow and at 47s 10½d in Middlesboro. Locally trade is rather quiet at the moment, but prices are well maintained, and but little talk of shading quotations is heard. No. 1 foundry northern is quoted at $17 50@17 75, the inside price being more or less nominal; No. 2 foundry northern is held at $17 50 and No. 1 foundry southern and No. 1 foundry southern soft at $17 75@18 00.

SCOTT IS AGAIN NAMED SENATOR

West Virginia Legislative Branches Elect Him—Will Ratify Choice Today.

DISPENSARY BILL IS LOST

[SPECIAL TELEGRAM TO THE GAZETTE.]

CHARLESTON, W. VA., Jan. 24.—Senator Nathan Bay Scott received a magnificent indorsement today when the two houses voted separately upon United States senator. The Democrats cast their votes for the Hon. John T. McGraw, their state chairman, making the third time he has received the empty honor. The vote stood in the house, Scott, 58; McGraw, 23. In the senate, Scott, 24; McGraw, 4. In joint session tomorrow the legislature will return Senator Scott. The totals of vote cast today are, Scott, 82; McGraw, 27.

The much-mooted dispensary bill died quickly in the house on second reading, when it was indefinitely postponed by the decisive vote of 65 to 13. It is rumored another dispensary bill will be introduced without the features that proved obnoxious to the temperance people.

Senator Hatfield of Wood county introduced a new election law in compliance with a very general demand for a better law than the one now operative. It is modeled after the Ohio and Indiana laws with party emblems and squares at the head of each ticket and after each name. It contains no provision for physical disabilities.

Senator Darst's bill to pay the county clerks a fixed salary, the same as state officers, and turn a good deal of the compensation they now receive into the state treasury, was severely knocked out in the senate. The county officials have one of the strongest lobbies in the state and they can make it interesting for any member that goes contrary to their wishes.

Senator Caldwell of Wood, who yesterday introduced the resolution that added a number of extra employes to the senate payrolls, whose services were not needed, today took another tack and introduced a bill providing that the speaker of the house and president of the senate and the two clerks should select their employes at the beginning of each session. The bill does not allow any others to be appointed except in case of sickness and death.

FORTUNATE ACCIDENT FOR BATTLING OFFICER

Telephone Receiver Was Knocked Off and Police Heard Noise of Struggle in Alderman's Office.

The violent ringing of a telephone bell in the operators' office on the third floor of Allegheny city hall yesterday morning caused Operator Thomas Brady to connect his line with that running to the office of Magistrate David McKelvey in North Diamond street. Through the receiver Brady heard the screaming of a woman and other noises that sounded like the struggles of several men. A policeman was immediately sent to McKelvey's office.

On the floor Constable Robert Alexander, Harry McKelvey, son of the magistrate, and George Johnston, a negro, were rolling in a rough-and-tumble fight that promised serious results. The aged magistrate stood behind his desk with drawn revolver, awaiting the outcome, ready to use the gun if necessary.

Johnston had been committed to jail in default of $500 bail on a charge of assault and battery preferred by Elizabeth Lee, colored. Constable Alexander had placed one hand-cuff on Johnston and was leading him out of the office when Johnston in passing the woman struck her a violent blow in the face. Then the fight started and in the mix-up one of the combatants fell against the telephone and knocked off the receiver, attracting Operator Brady. With the aid of the policeman Constable Alexander overpowered his prisoner and landed him in jail.

THE THREE RIVERS

The stage of water at Davis island dam at 8 o'clock last night was 5.4 feet, and the river was falling.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CINCINNATI, Jan. 24.—At 6 p. m. today the Ohio river at Cincinnati was 12.2 feet and falling. Today's departures were: Keystone State, Pittsburgh; Tacoma, Pittsburgh; Courier, Maysville, and City of Louisville, Louisville. The wreck of the Ollie Neville has been discovered about 600 yards above Taylor's bar and pilots are warned to look out for it. Today's towboat movements were: Up, Convoy, Jack Frost, for Kanawha, and the Coal City and Ironsides for Pittsburgh, with empties. The Joseph B. Williams was delayed in her return to Pittsburgh with empties by having to double trip on the Rising Sun bar and gathering up a lot of empties along the shore. She passed up late last night. It is not expected that the number of towboats bound for Pittsburgh will get much above Pomeroy on account of the prospective ice and fast falling river. Clear and much colder.

WARREN—River 1 foot 8 inches. Cold, snowy.

GALLIPOLIS—River 9 feet and falling. Cloudy and cool with a heavy snow all day.

MORGANTOWN—River 7 feet 3 inches and falling. Cloudy and cool.

PARKERSBURG—River 7.2 feet and falling. Two inches of snow today. Clear and much colder tonight.

LOUISVILLE—River falling; 5 feet 9 inches in canal; 3 feet 7 inches on falls. 11 feet below locks. Clear and cold. River full of ice and harbor reopened at the close of the day.

RIVERMEN FEELING BLUE.

Threat of Zero Weather Gives Them Cause for Disappointment.

Rivermen were feeling blue yesterday when the weather bureau sent out a bulletin to the effect that zero weather could be looked for about Wednesday. Packet navigation just opened again after a couple of weeks' idleness due to ice. Zero weather means another freezeup, and there is no prospect of any more boats getting in or out except the Virginia, which is now on her way here from Cincinnati. The Keystone State was to have started yesterday and the Queen City Thursday, but they will not start in the face of this adverse weather report.

The River Coal company has four boats tied up at Sewickley, and does not expect to get in many more empties. About 125 pieces have been brought up and distributed at the mines along the river. This means steady work for a short time for the miners.

The Tornado got in yesterday with empties and went back to help the Ed Roberts.

The G. W. Thomas, which got in Monday with empties, has gone to Rochester to help the Oakland.

The Frank Gilmore went to Parkersburg Monday to get the tow of the Clifton and take it to Paducah. The Clifton left here with 30 pieces, among them the hull of the Mayflower. At Parkersburg trouble arose between the owners, and she is now tied up there in admiralty.

The Rena Lee arrived at Cincinnati Monday from Memphis and will leave for that city Saturday. She is the first Memphis boat up and makes the connection between this city and Memphis.

The Kanawha went out yesterday for Parkersburg with a big trip of passengers and freight.

Mr. George Dunbar, agent of the Raymond & Whitcomb Co., announces the receipt of a cablegram from Bermuda advising the arrival on time of their party on the first cruise this season to the West Indies, the party being all well and the trip in every way satisfactory.

UNITED STATES SENATOR N. B. SCOTT.

PENNSYLVANIA APPROPRIATES MONEY TO IMPROVE SHOPS

There is a disposition on the part of the officials of the Pennsylvania railroad to spend considerable money in repairing equipment. Heretofore most of the money appropriated for repairs has been expended on improvements to roadbeds, the construction of new lines, the elimination of curves and reducing grades. The directors now seem to think that money can be well spent in remodeling repair shops in order to properly take care of damaged rolling stock, and with this end in view have appropriated $450,000 for improvements of the company's shops at Renova and Olean. The company will expend $150,000 for additions to the storerooms, and machine and locomotive repair shops at Renova, and $300,000 will be expended in improving the shops at Olean, where the company has recently spent a large sum of money in erecting additions. The directors will meet today in Philadelphia. A successor to Robert W. Downing, comptroller of the company, will be appointed. Mr. Downing retiring under the pension plan. His logical successor is Max Riebenack, the present assistant comptroller.

Braddock Wants an Improvement.

Citizens of Braddock are preparing a petition to be presented to S. C. Long, superintendent of the Pittsburgh division of the Pennsylvania railroad, asking that new means of communication be constructed between the westbound and eastbound passenger tracks at the Braddock station. At present the station is on the westbound side and all tickets have to be purchased on that side. Then to reach the eastbound trains it is necessary to go down a long flight of steps, proceed along Library street for nearly 100 feet and then ascend another flight of steps. Rather than do than many persons climb over the fence separating the tracks and this has resulted in frequent loss of life. The plan proposed is to build a platform under the tracks with a clearance of about eight feet.

Lines to Be Inspected.

The Pullman Company is going to establish a new department. It was decided recently to hire women to inspect the linen. Each district superintendent will have such an employe on his staff. The company now employs a number of seamstresses at different points to repair the linens used in Pullman cars. It will be the duty of the women inspectors to see that all the linen is kept in first-class shape, properly washed and free from everything that might cause disease. The new plan will be put into operation at once in Pittsburgh and at all other division points, where Pullmans are assembled.

To Fix Picnic Rates.

At the regular meeting of the Pittsburgh Passenger committee, to be held Tuesday of next week, several important questions will be considered. At this session the matter of rates and arrangements for picnics to nearby resorts during the coming summer will be agreed upon. A feature of these rates will be the settling of prices for the opening of Rock Point as a picnic resort. For the past two years this resort has been closed, heavy freight traffic preventing the running of special excursions.

Dining Service for the P. & L. E.

The Pittsburgh & Lake Erie, in connection with the Erie railroad, has made arrangements to put on two new dining cars between Pittsburgh and Cleveland, January 30, to take the place of the Pullman buffet cars now doing service on those lines. The company has had four new cars built, which, when installed, will be under the supervision of the dining car department of the Erie railroad and the Pullman buffet service on that line will be at an end. This new movement is in keeping with the policy of railroads generally, to substitute dining car service for the old buffet service.

Railroad Notes.

The repair shops of the Baltimore & Ohio are busy repairing locomotives damaged by using impure water during the recent drought.

A. W. Johnson, general superintendent of the Nickel Plate, and W. L. Gilmore, superintendent of motive power of the same system, were in Pittsburgh yesterday.

YOU CAN INTEREST HIM.

Any Man Over Fifty.

You can interest any man over 50 years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the buoyancy and vigor of 25 nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that the stomach of 50 is a very different one from the stomach he possessed at 25. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of 50, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food because blood, nerves, brain tissue and every other constituent of the body are entirely the product of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting half-digested food.

No, the stomach itself wants help and in no round-about way, either; it wants direct, unmistakable assistance, such as is given by one or two Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new fangled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug. Whereas as a matter of truth any druggist who is observant knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heartburn, heart trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors' prescriptions for stomach trouble combined.

JUMPED TO WORKHOUSE VIA PLATE GLASS WINDOW

How Dennis Haggerty While in Homestead Dead Broke Took a Short Cut to Claremont.

"I want to go to the workhouse," said Dennis Haggerty last evening to Officer Patrick Cotter of the Homestead police force. When told that he could not be sent to that place unless he broke the law he replied, "Well, that is an easy matter to fix," and before the officer could prevent him, Haggerty took a run and jumped through a large plate glass window in the drygoods store of Maurise Marelly, Dickson street, Homestead.

Haggerty says he is a veteran of the Spanish-American war and, having no home and no money, was not particular where he went to. His hands and face were cut by the flying glass. At a hearing last night before Burgess Ross he was sent to the workhouse for 90 days.

NEW GIFT TO OBERLIN.

Andrew Carnegie Offers College $125,000 for Library—School Must Raise $100,000.

OBERLIN, O., Jan. 24.—President King of Oberlin college, announced today that he had received a letter from Andrew Carnegie offering to give to Oberlin college $125,000 for a library, conditional upon the raising by the institution of $100,000 to maintain the same. The college officials will at once go to work with a view to securing the required fund.

The offer from Mr. Carnegie was in response to an appeal to him from President King in April of last year.

That Boy and Girl of Yours.

Dr. Wilbur F. Crafts, superintendent of the International Reform bureau, will deliver a lecture, entitled, "That Boy and Girl of Yours," at 8 p. m., Sunday, February 5, in the Tabernacle Presbyterian church, Collins avenue and Station street.

Office Men's Club to Meet.

Tomorrow evening the Office Men's club will meet at their rooms, 416 Wood street. An interesting program has been prepared, including several papers which will be read on subjects of interest to office men.
